

TABLE OF CONTENTS – Advances in Fish Processing Technologies : Preservation, Wastes Utilization, and Safety Assurance

PART I: ADVANCES IN FISH PRESERVATION, PROCESSING, AND PACKAGING TECHNOLOGIES

1. Advancement in Fish Processing Technology: The Indian Scenario

C. N. Ravishankar and C. O. Mohan

2. Surimi and Surimi-Based Products

B. A. Shamasundar

3. Freezing of Fish and Fishery Products: Basics and Advancements

K. Dhanapal and G. Praveen Kumar

4. Emerging Fish Processing and Packaging Technologies: An Overview

C. O. Mohan, S. Remya, K. R. Sreelakshmi, K. Elavarasan, and C. N. Ravishankar

5. Utilization of Low-Cost Fish through Restructured Product-Based Technologies

Amjad K. Balange and R. P. Deepitha

6. Hydrocolloids: Application in Fish Processing to Improve Mechanical and Functional Properties of Fish Products

Ranendra K. Majumdar

7. Edible Packaging for Fish Preservation: Fundamentals and Applications

P. Layana, R. P. Deepitha, K. A. Martin Xavier, and A. K. Balange

8. Disruptive Technologies: Its Scope in Seafood Processing and Traceability of Fish Products

Ajit Kumar Roy, B. M. Yadav, and S. A. Joshi

9. Secondary Raw Material and Low-Cost Fish for Fish Meal Production and Its Implications in the Animal Feed Industry

L. Narasimha Murthy, Girija G. Phadke, A. Jeyakumari, and S. Vijayakumar

PART II: SEAFOOD COMPOSITION AND SCOPE OF DEVELOPING HIGH-VALUE PRODUCTS

10. Marine Fish Fatty Acids: Variation in Fatty Acid Profiles of Pelagic and Demersal Fishes

R. Ramesh and G. Venkateshwarlu

11. Endogenous Enzymes: Their Roles in Quality of Fish/Shellfish and Their Products

Soottawat Benjakul, Avtar Singh, Thanasak Sae-Leaw, and Amjad K. Balange

12. Green Technologies for Developing High-Value Novel Marine Nutraceuticals: Scope and Innovations

Lekshmi R. G. Kumar, Niladri S. Chatterjee, and Suseela Mathew

PART III: UTILIZATION OF FISH PROCESSING WASTES

13. Fish Wastes: Present Status of Utilization and Scope of Valorization

Ranendra K. Majumdar

14. Production of Omega-3 Capsules from Fish Offal: Recycling of Resources for Sustainable Production and Consumption

Bimal Prasanna Mohanty, Satabdi Ganguly, Arabinda Mahanty, Tandrima Mitra, Sasmita Mohanty, and Basanta Kumar Das

15. Bioactive and Functional Nutraceuticals from Shrimp Processing Wastes

K. A. Martin Xavier and Kasturi Chattopadhyay

16. Edible Packaging from Fishery Waste: A Future Prospective

Sathish Kumar Kannaiyan and J. Bindu

PART IV: EMERGING SEAFOOD SAFETY CONCERN AND QUALITY MANAGEMENT

17. Antimicrobial Resistant Bacteria: An Emerging Seafood Safety Concern

Jerusha Stephen, Manjusha Lekshmi, Parvathi Ammini, Binaya Bhusan Nayak, and Sanath H. Kumar

18. Emerging Pathogens of Public Health Significance Associated with Seafood

L. Manjusha, H. Sanath Kumar, and Binaya Bhusan Nayak

19. Understanding Food Safety in Fish and Fishery Products

T. V. Sankar

20. Developments in Safety and Quality Management of Fish and Fishery Products

G. Jeyasekaran and R. Jeya Shakila

PART V: ENTREPRENEURSHIP DEVELOPMENT IN THE FISH PROCESSING SECTOR

21. Entrepreneurship Initiatives in the Fisheries Post Harvest Sector Through the Agribusiness Incubation Program

George Ninan.
