

TABLE OF CONTENTS – Autoimmune Diseases in Domestic Animals

- Cover Image
- Title Page
- Copyright
- Dedication
- Acknowledgments
- Preface
- Table of Contents
- Abbreviations and Acronyms
- Chapter 1 Basic Immunology: A Review
- Chapter Outline
- Innate Immunity
- Step 3: B- and T-Cell Responses
- The Complement System
- Regulatory T Cells
- Sources of Additional Information
- Chapter 2 Immunologic Tolerance
- Chapter Outline
- Tolerance
- Central Tolerance
- Peripheral Tolerance
- Regulatory Cells
- Sources of Additional Information
- Chapter 3 Loss of Tolerance
- Chapter Outline
- Witebsky's Postulates
- Normal Immune Responses
- Abnormal Immune Responses
- Sources of Additional Information
- Chapter 4 Genetic Factors in Autoimmunity
- Chapter Outline
- MHC Genes
- Genetic Predisposition to Autoimmunity
- Monogenic Diseases
- Sources of Additional Information
- Chapter 5 The Microbiota and Autoimmunity
- Chapter Outline
- The Hygiene Hypothesis
- The Normal Microbiota
- Immunosuppression
- The Microbiota and Autoimmunity
- Sources of Additional Information
- Chapter 6 Autoimmune Endocrine Diseases
- Chapter Outline
- Lymphocytic Thyroiditis

- Lymphocytic Parathyroiditis
- Type 1 Diabetes Mellitus
- Autoimmune Adrenalitis
- Autoimmune Hypophysitis
- Autoimmune Polyendocrine Syndromes
- Sources of Additional Information
- Chapter 7 Autoimmune Neurologic Diseases
- Chapter Outline
- Peripheral Nervous System
- Polyneuritis
- **CENTRAL NERVOUS SYSTEM**
- Other Neurologic Diseases
- Sources of Additional Information
- Chapter 8 Autoimmune Eye Diseases
- Chapter Outline
- Immune Privilege
- Autoimmune Diseases of the Cornea and Conjunctiva
- Autoimmune Diseases of the Uvea
- Autoimmune Retinal Diseases
- Ancillary Structures
- Sources of Additional Information
- Chapter 9 Autoimmune Reproductive Diseases
- Chapter Outline
- Autoimmunity in Males
- Autoimmunity in Females
- Autoallergy
- Immune Contraception
- Production-Enhancing Vaccines
- Sources of Additional Information
- Chapter 10 Autoimmune Skin Diseases
- Chapter Outline
- Blistering Diseases
- Pemphigus Group
- Pemphigoid Group
- Melanocyte Diseases
- Hair Follicle Diseases
- Other Immune-Mediated Diseases
- Sources of Additional Information
- Chapter 11 Autoimmune Blood Diseases
- Chapter Outline
- Immune-Mediated Hemolytic Anemias
- Immune-Mediated Thrombocytopenia
- Antiphospholipid Syndrome
- Immune-Mediated Lymphopenia
- Immune-Mediated Neutropenia
- Immune-Mediated Hemophagocytic Syndrome
- Sources of Additional Information
- Chapter 12 Autoimmune Muscle Diseases
- Chapter Outline
- Polymyositis

- Autoimmune Heart Failure
- Neuromuscular Junction Disorders
- Sources of Additional Information
- Chapter 13 Autoimmune and Immune-Mediated Liver and Kidney Diseases
- Chapter Outline
- Autoimmune Liver Diseases
- Autoimmune Kidney Diseases
- Immune Complex–Mediated Glomerulopathies
- Sources of Additional Information
- Chapter 14 Autoinflammatory Diseases
- Chapter Outline
- Autoinflammatory Diseases
- Canine IgG4-Related Diseases
- Sources of Additional Information
- Chapter 15 Systemic Lupus Erythematosus
- Chapter Outline
- Predisposing Factors
- Pathogenesis
- Canine Systemic Lupus
- Lupus-Related Skin Diseases
- Nailbed Diseases
- Sources of Additional Information
- Chapter 16 Rheumatoid Arthritis
- Chapter Outline
- Rheumatoid Arthritis
- Pathogenesis
- Canine Rheumatoid Arthritis
- Feline Erosive Polyarthritis
- Sources of Additional Information
- Chapter 17 Seronegative Nonerosive Arthropathies
- Chapter Outline
- Reactive Polyarthritis
- Other Inflammatory Arthritides
- Sources of Additional Information
- Chapter 18 Immune-Mediated Vascular Disease
- Chapter Outline
- Arteritis
- Small Blood Vessel Diseases
- Sources of Additional Information
- Chapter 19 Immune-Mediated Enteropathies
- Chapter Outline
- Genetic Predispositions
- Intestinal Immune Tolerance
- Loss of Food Tolerance
- Canine Inflammatory Bowel Disease
- Equine Inflammatory Bowel Disease
- Sources of Additional Information
- Chapter 20 Diagnostic Tests for Autoimmune Diseases
- Chapter Outline
- Primary Binding Tests

- Secondary Binding Tests
- Sources of Additional Information
- Chapter 21 The Treatment of Immune-Mediated Diseases
- Chapter Outline
- Glucocorticosteroids
- Calcineurin Inhibitors
- Phosphodiesterase Inhibitors
- Antimetabolites
- Antiinflammatory Drugs
- Sources of Additional Information
- Chapter 22 Experimental Autoimmune Disease Models
- Chapter Outline
- Endocrine Diseases
- Neurologic Diseases
- Eye Diseases
- Reproductive Diseases
- Skin Diseases
- Blood Diseases
- Muscle Diseases
- Liver Diseases
- Systemic Lupus Erythematosus
- Autoimmune Arthritis
- Immune-Mediated Vasculitis
- Inflammatory Intestinal Diseases
- Sources of Additional Information
- Index.
