

# TABLE OF CONTENTS

## Biology and Evolution of the Mollusca [2-volume set]

### Volume One

- Chapter 1. Introducing Molluscs
- Chapter 2. Overview of Molluscan Physiology and Genomics
- Chapter 3. Shell, Body, and Muscles
- Chapter 4. The Mantle Cavity and Respiration
- Chapter 5. Feeding and Digestion
- Chapter 6. Circulatory and Excretory Systems
- Chapter 7. Nervous System, Sense Organs, Learning and Behaviour
- Chapter 8. Reproduction and Development
- Chapter 9. Natural History and Ecology
- Chapter 10. Molluscs and Humans
- Chapter 11. Research on Molluscs – Some Historical, Present, and Future Directions

### Volume Two

- Chapter 12. Molluscan Relationships
- Chapter 13. Early History and Extinct Groups
- Chapter 14. Polyplacophora, Monoplacophora, and Aplacophora
- Chapter 15. The Bivalvia
- Chapter 16. The Scaphopoda
- Chapter 17. The Cephalopoda
- Chapter 18. Gastropoda I — Introduction and the Stem Groups
- Chapter 19. Gastropoda II — The Caenogastropoda
- Chapter 20. Gastropoda III — The Heterobranchia
- Chapter 21. Molluscan Research — Present and Future Directions
