

# TABLE OF CONTENTS – CANINE REPRODUCTION AND NEONATALOLOGY

## **Working With Breeders**

Normal Reproduction  
Basic Reproductive Care

## **Genetic Selection And Screening**

Selecting Breeding Stock  
Counseling the Breeder/Client  
Specific Disease-Based Screening Examinations and Databases  
Genotypic Screening  
Line Breeding  
The Breeding Program

## **Preparing To Breed**

Planning the Breeding  
Stud Dog Selection  
Preparing the Bitch for Breeding  
Timing the Bitch for Breeding

## **Orchestrating the Breeding – Natural And Special Breeding**

Scheduling the Breeding Appointment  
The Normal Breeding  
Vaginal Artificial Inseminations  
Shipping Fresh Chilled Semen  
Handling Frozen Semen  
Surgical Insemination  
Transvaginal Insemination

## **Managing The Pregnancy**

Environmental Management and Housing  
Drugs and Vaccines During Pregnancy  
Anthelmintics During Pregnancy  
Nutrition  
Diagnosing the pregnancy  
Managing the Abnormal Pregnancy  
Premature Labor and Hypoluteoidism

## **Managing The Whelping And C – Section**

Preparing for the Whelping at Home  
The Normal Delivery  
Managing a Whelping at the Veterinary Hospital  
Tacdynamometry  
Managing the C-section

Dystocia  
Managing the C – Section  
Techniques for Success  
Anesthesia  
Surgery – C-section and Delivery of the pups  
Resuscitation of the Neonate at Vaginal or C- Section Birth  
Discharge of the Bitch and Her Litter  
**Managing the Immediate Postpartum Period In The Bitch**  
Health Care  
Nutrition and Exercise  
Anthelmenthics  
Common Disorders of the Immediate Postpartum Period

### **Neonatal and Pediatric Care**

The Normal Neonate  
Advanced Home Care  
Causes of Neonatal Mortality  
Neonatal Supportive Care  
The Singelton Puppy  
Taildocking and Dew Claw Removal  
Nutrition  
Preparing Puppies for a New Home  
Placing the Puppies  
Registering Litters

### **Infertility And Reproductive Problems In The Valuable Bitch**

The Normal Estrous Cycle  
The Ideal Age To Breed And Frequency  
Maximizing Litter Size  
The Missed Breeding  
Planning for the Next Breeding  
Abnormal Estrous Cycles  
Failure to Maintain Pregnancy  
Hormonal Alteration of Estrous  
Pseudopregnancy  
Diagnosing Pyometra  
Miscellaneous Disorders of Pregnancy  
The Accidental Breeding  
Special Breedings  
Mammary Tumors

### **Infertility And Reproductive Problems In The Valuable Stud Dog**

Breeding Soundness Examination  
Collecting the Stud Dog  
Sperm Count and Morphology  
Endocrinopathies and Hormonal Diseases  
Disorders of the Prostate

Disorders of the Testes  
Scrotal Disorders  
Disorders of the Penis  
Failure to Achieve Sexual Maturity and Intersex  
Disorders of Copulation  
Disorders of Sperm Production  
Technical Advances in Perpetuating Male Fertility

**Special Breedings**

***Working With Fresh Chilled Semen***

***Breeding a Bitch With Frozen Semen***
