

TABLE OF CONTENTS – Conservation of Marine Birds

Section I: Threats

1. Ecology of marine birds

Lindsay C. Young and Lisa T. Ballance

2. Conservation status and overview of threats to seabirds

Richard A Phillips, Jérôme Fort, and Maria P Dias

3. Interactions between fisheries and seabirds: prey modification, discards and bycatch

William A. Montevecchi

4. Invasive species

Dena R. Spatz, Holly Jones, Elsa Bonnaud, Peter Kappes, Nick D. Holmes, and Yuliana Bedolla Guzmán

5. Health and Diseases

Ralph Eric Thijl Vanstreels, Marcela M. Uhart, and Thierry Work

6. Pollution - lights, plastics, oil, and contaminants

Morgan Gilmour, Stephanie Borrelle, Linda Elliott, Rae Okawa, and Airam Rodriguez

7. Exploitation and disturbance

D.C. Duffy and V. Peschko

8. Climate change: the ecological backdrop of seabird conservation

Pierre A. Pistorius, William J. Sydeman, Yutaka Watanuki, Sarah Ann Thompson, Florian Orgeret

Section II: Solutions

9. Introduction and historical approaches to seabird conservation

Colin M. Miskelly

10. Legal and cooperative mechanisms for conserving marine birds

Mi Ae Kim, Craig S. Harrison, and Mark L. Tasker
