

# Table of contents

Forward.

## Chapter 1 Introduction

- 
- Cancer Biology and Terminology
- 
- A Definition of Tumour:
- 
- A Definition of Cancer
- 
- Nomenclature
- 
- Cancer Biology
- 
- The Causes of Cancer
- 
- Suggested Further Reading

## Chapter 2 Paraneoplastic Syndromes

- 
- Introduction
- 
- Specific Syndromes:
- 
- Hypercalcaemia
- 
- Hypoglycemia
- 
- Hypertrophic Osteopathy (HO)
- 
- Dermatological Paraneoplastic Syndromes
- 
- Haematologic Paraneoplastic Syndromes
- 
- Mast cell degranulation
- 
- Cancer Cachexia
- 
- Pyrexia Associated with Neoplasia

## Chapter 3 Clinical Approach to the Cancer Patient

- 
- Introduction
- 
- Determining the Type of Tumour Ø Tumour Staging
- 
- Staging For Solitary Tumours.
- 
- Imaging Technologies and Their Indications in Oncology
- 
- Staging for Disseminated or Multicentric Disease:
- 
- Assessment of General Clinical Health

#### Chapter 4 Biopsy, Tissue Handling and Interpretation

- 
- Introduction
- 
- Is Pre-treatment Biopsy Necessary?
- 
- Post-Surgical Biopsy is essential for:
- 
- Pre-Biopsy Considerations
- 
- Cytology
- 
- Procedures in Cytology
- 
- Practical Cytological Interpretation
- 
- Needle Biopsy
- 
- Skin Punch Biopsy
- 
- Incisional Biopsy
- 
- Excisional biopsy
- 
- Choosing Biopsy Procedures
- 
- Bone Marrow Biopsy
- 
- Tissue Preparation and Handling after Biopsy
- 
- Interpretation of Histopathology Reports
- 
- The Pathology Submission Check List
-

- Immunohistochemistry

## Chapter 5 Cancer Treatment Modalities

- 
- Choosing the appropriate Modality
- 
- Surgery
- 
- Radiotherapy
- 
- Chemotherapy
- 
- Novel Therapies
- 
- Palliative Care

## Chapter 6 Tumours of the Skin and Subcutis

- 
- Introduction
- 
- Classification
- 
- Common Clinical Findings
- 
- Diagnosis
- 
- Staging for Canine and Feline Epidermal and Dermal Tumours
- 
- General treatment options for skin tumours
- 
- Epithelial Tumours
- 
- Feline Squamous Carcinoma
- 
- Canine Squamous Cell Carcinoma
- 
- Mesenchymal Tumours
- 
- Decision Tree For Soft-Tissue Tumours
- 
- Injection Site Sarcomas in Cats
-

- Round Cell Tumours
- 
- Melanocytic Tumours
- 
- Ear Canal Tumours of Dogs and Cats

Chapter 7 Mast Cell Tumours.

Part 1: Cutaneous mast cell tumours in the dog

- 
- Introduction
- 
- Pathology and behaviour
- 
- Clinical presentation
- 
- Diagnostic investigations
- 
- Staging
- 
- Prognostic factors
- 
- Predictors of behaviour at presentation
- 
- Treatment options

Part 2: Feline Mast Cell Disease

- 
- Introduction
- 
- Cutaneous Feline MCTs
- 
- Visceral (splenic and intestinal) MCTs
- 
- Pathology and behaviour
- 
- Clinical presentation
- 
- Diagnostic investigations
- 
- Staging
- 
- Treatment options
-

- Prognostic factors
- 
- Splenic Mast Cell Tumors
- 
- Intestinal Mast Cell Tumors

## Chapter 8 Canine and Feline Histiocytic Disorders

- 
- Introduction
- 
- Histiocyte Biology
- 
- Canine Cutaneous Histiocytoma
- 
- Canine Cutaneous Histiocytoma Decision Tree
- 
- Systemic Histiocytosis
- 
- Haemophagocytic Histiocytic Sarcoma
- 
- Feline Histiocytic Sarcoma

## Chapter 9 Canine Lymphoma and Leukaemia

- 
- Lymphoma
- 
- Canine Leukaemias
- 
- Feline Leukaemia

## Chapter 11 Splenic Tumours

- 
- Differential diagnoses for splenic masses in the dog and cat
- 
- Differential diagnoses for Uniform splenomegaly in the dog and ca
- 
- Diagnostic Decision Tree in Splenic lesions
- 
- Tumours usually associated with metastatic disease in the spleen

## Chapter 12 Gastrointestinal Tumours

- 
- General Clinical Features Associated with Gastrointestinal Malignancies
- 
- A General Diagnostic Decision Tree in Gastrointestinal Tumours
- 
- Oral Tumours
- 
- Salivary Tumours in Dogs and Cats
- 
- Oesophageal Tumours in Dogs and Cats
- 
- Gastric Tumours in Dogs and Cats
- 
- Intestinal and Rectal Tumours
- 
- Perianal Tumours
- 
- Hepatobiliary Tumours
- 
- Exocrine Pancreatic Tumours

## Chapter 13 Tumours of the Respiratory System

- 
- Nasosinal tumours in dogs
- 
- Nasosinal tumours in cats
- 
- Laryngeal Tumours in Dogs
- 
- Laryngeal Tumours in Cats
- 
- Tracheal Tumours in Dogs and Cats
- 
- Lung Tumours in Dogs
- 
- Pulmonary Lymphomatoid Granulomatosis in the Dog
- 
- Lung Tumours in Cats

## Chapter 14 Endocrine Tumours

- 
- Tumours of the Endocrine System and their associated syndromes:
- 
- Pituitary and Adrenal (functional glucocorticoid secreting) Tumours
- 
- Somatotroph Tumours (Causing feline Acromegaly)
- 
- Adrenal Gland Tumours
- 
- The Incidental Adrenal Mass
- 
- Thyroid Tumours in Dogs
- 
- Feline Thyroid Tumours
- 
- Parathyroid Tumours
- 
- Islet b-Cell Tumours of the Pancreas
- 
- Miscellaneous Endocrine Tumours

#### Chapter 15 Tumours of the urinary system

- 
- Lower Urinary Tract tumours
- 
- Upper Urinary Tract tumours

#### Chapter 16 Tumours of the Reproductive Tract.

##### Part 1: The Female Reproductive Tract

- 
- Ovarian Tumours
- 
- Uterine Tumours
- 
- Vaginal and Vulval Tumours
- 
- Transmissible Venereal Tumour(TVT)

##### Part 2: Tumours of the Male Reproductive Tract

- 
- Prostatic Carcinoma
- 
- Testicular Tumours
- 
- Tumours of the Penis and Prepuce:

#### Chapter 17 Canine and Feline Mammary Tumours

- 
- Canine Mammary Gland Tumours (MGT)
- 
- Classification of Canine and Feline Mammary Tumours
- 
- Feline Mammary Tumours

#### Chapter 18 Tumours of the Musculoskeletal System

- 
- Bone tumours
- 
- Soft tissue sarcomas in Dogs
- 
- Notes on FISS cases and their management
- 
- Histiocytic sarcoma (localised).
- 
- Histiocytic sarcoma (disseminated).
- 
- Prognosis – soft tissue sarcomas in dogs and cats

#### Chapter 19 Tumours of the Brain, Spinal Cord, Peripheral Nerves and Special Senses

- 
- Tumours of the Brain
- 
- Spinal cord tumours
- 
- Tumours of Peripheral nerves
- 
- Tumours of the Eye and Associated Structures

Chapter 20 Miscellaneous Tumours

- 
- Part 1: Cranial Mediastinal Mass
- 
- Part 2: Malignant Effusions
- 
- Part 3: Cardiac Tumours
