

TABLE OF CONTENTS

1. Basic Radiology Principles and Interpretation
2. Designing a Radiographic Technique Chart
3. Radiology Physics and Artefacts
4. Applied Radiation Safety
5. Advanced Diagnostic Imaging
6. Head
7. Spine (Neuroradiology including Contrast Procedures)
8. Neck (including Trachea)
9. Thorax (excluding the heart)
10. Heart and Great Vessels
11. General Abdomen
12. Liver, Spleen, Lymph Nodes and Pancreas
13. Digestive Tract (including Contrast Procedures)
14. Urogenital Tract (including Contrast Procedures)
15. General Principles of Orthopaedic Radiology
16. Congenital and Developmental Bone and Joint Diseases
17. Acquired Bone and Joint Diseases
18. Fractures
19. Birds
20. Small Mammals
21. Reptiles.
