Editors' Comment: Recent Changes in Coral Taxonomy

1 Introduction, 1

James W. Porter

2 Pathology, 4

Cheryl M. Woodley, Russell A. Harley, James H. Nicholson and Taylor L. Reynolds

3 Etiology, 16

Michael Thrusfield

4 Epidemiology, 28

Michael Thrusfield

5 History of Coral Disease Research, 52

Andrew W. Bruckner

6 Anatomy, 85

Esther C. Peters

7 Morphological, Physiological and Cytological Aspects of Reproduction in Scleractinian Corals, 108

Esti Kramarsky-Winter

8 The Innate Immune System in Cnidarians, 125

Thomas C. G. Bosch and Philip Rosenstiel

9 Endocrine-Like Signaling in Corals, 138

Ann M. Tarrant

10 Heterotrophic Nutrition of Tropical, Temperate and Deep-Sea Corals, 150

Fanny Houlbrèque, Riccardo Rodolfo-Metalpa and Christine Ferrier-Pagès

11 Nervous System: Morphology and Physiology of Cnidarian Conducting Systems, 164

Gabriele Kass-Simon and Linda A. Hufnagel

12 Physiology of Skeletogenesis in Scleractinian Coral, 192

Fuad A. Al-Horani

13 Vibriosis, 206

Luba Arotsker and Ariel Kushmaro

- 14 Acroporid Serratosiis, 221
Kathryn Patterson Sutherland, Erin K. Lipp and James W. Porter
- 15 *Aurantimonas coralicida*—White Plague Type II, 231
Laurie L. Richardson
- 16 Aspergillosis of Caribbean Sea Fan Corals, *Gorgonia* spp., 236
Kiho Kim and Krystal Rypien
- 17 Mechanical Lesions and Corallivory, 242
Andrew W. Bruckner and Robin J. Bruckner
- 18 Coral Bleaching: The Roles of Sea Temperature and Solar Radiation, 266
Barbara E. Brown and Richard P. Dunne
- 19 Viruses and Coral Disease, 284
William H. Wilson and Cheryl M. Woodley
- 20 Skeletal Growth Anomalies in Corals, 291
Thierry M. Work, Longin T. Kaczmarek and Esther C. Peters
- 21 White Syndromes of Indo-Pacific Corals, 300
David G. Bourne, Tracy D. Ainsworth and Bette L. Willis
- 22 White Syndromes of Western Atlantic Reef-Building Corals, 316
Andrew W. Bruckner
- 23 Indo-Pacific Colored-Band Diseases of Corals, 333
Laurie J. Raymundo and Ernesto Weil
- 24 Cyanobacterial-Associated Colored-Band Diseases of the Atlantic/Caribbean, 345
Laurie L. Richardson, Aaron W. Miller, Patricia L. Blackwelder and Husain Al-Sayegh
- 25 Dark-Spots Disease, 354
Thierry M. Work and Ernesto Weil
- 26 Halofolliculina Ciliate Infections on Corals (Skeletal Eroding Disease), 361
Cathie A. Page, Aldo Cróquer, Carolina Bastidas, Sebastian Rodríguez, Stephen J. Neale, Ernesto Weil and Bette L. Willis
- 27 Yellow-Band Diseases, 376
Andrew W. Bruckner and Bernhard Riegl
- 28 *Porites* Trematodiasis, 387
Greta Smith Aeby
- 29 Pink-Line Syndrome, 391
Jeyaraman Ravindran, C. Raghukumar and B. Manikandan

- 30 Coral “Bleaching” as a Generalized Stress Response to Environmental Disturbance, 396
Andrew C. Baker and Ross Cunning
- 31 Diseases of Octocorals, 410
Kiho Kim
- 32 The Diseases of Deep-Water Corals, 416
Alex David Rogers, Kirsty M. Kemp, Andrew J. Davies and Michelle Lisa Taylor
- 33 Biocontainment Practices for Coral Disease Research, 442
Dušan Palić, Janet V. Warg and Thierry M. Work
- 34 Closing Pandora’s Box: Regulations and Permitting Considerations for Coral Disease Research, 458
David Gulko, Cheryl M. Woodley and Sylvia B. Galloway
- 35 Coral Regeneration Assay, 472
Elizabeth F. Moses and Pamela Hallock
- 36 Coral Tissue Culture and Micropropagation, 482
Maya Vizel and Esti Kramarsky-Winter
- 37 Coral Cell and Tissue Culture Methods, 489
Isabelle Domart-Coulon and Gary K. Ostrander
- 38 Theory and Application of Pulse Amplitude Modulated Chlorophyll Fluorometry in Coral Health Assessment, 506
Peter J. Ralph, Ross Hill, Martina A. Doblin and Simon K. Davy
- 39 Zooxanthellae Viability Assay, 524
Martina M. Burtscher, Lisa A. May, Craig A. Downs and Thomas Bartlett
- 40 Quantifying Total Porphyrin Species from Scleractinian Coral Tissue Extracts, 538
Cheryl M. Woodley, Athena R. Burnett and Craig A. Downs
- 41 Chemiluminescent Method for Quantifying DNA Abasic Lesions in Scleractinian Coral Tissues, 547
Lisa A. May and Cheryl M. Woodley
- Glossary, 556
- Index, 570.
