

TABLE OF CONTENTS

Electrocardiography in Veterinary Medicine

1. Front Matter
2. Canine
 1. *Front Matter*
 2. *Cardiac Evaluation Approaches*
 - J. P. Varshney

Pages 3-23

 3. *Electrocardiography: Its Uses and Limitations*
 - J. P. Varshney

Pages 25-40

 4. *Generation and Shape of Electrocardiogram*
 - J. P. Varshney

Pages 41-51

 5. *A Systematic Reading of an Electrocardiogram*
 - J. P. Varshney

Pages 53-62

 6. *Benchmarks for Normal Electrocardiogram*
 - J. P. Varshney

Pages 63-67

 7. *Abnormal Wave Forms, Segments, and Intervals in Electrocardiogram*
 - J. P. Varshney

Pages 69-77

 8. *Atrial and Ventricular Enlargement Patterns and Clinical Associations*
 - J. P. Varshney

Pages 79-89

9. *Intraventricular Conduction Abnormality and Bundle Branch Blocks*

- J. P. Varshney

Pages 91-94

10. *ECG Patterns Associated with Electrolyte Imbalances, Drug Toxicities and Physical and Chemical Agents*

- J. P. Varshney

Pages 95-100

11. *Cardiac Arrhythmias*

- J. P. Varshney

Pages 101-136

12. *Electrocardiographic Findings in Cardiac and Non-cardiac Diseases*

- J. P. Varshney

Pages 137-144

13. *Canine Cardiomyopathy and Bacterial Endocarditis*

- J. P. Varshney

Pages 145-159

14. *Valvular Insufficiency*

- J. P. Varshney

Pages 161-169

15. *Pericardial Effusion*

- J. P. Varshney

Pages 171-175

16. *Heart Failure, Cardiopulmonary Arrest, and Cardiogenic Shock*

- J. P. Varshney

Pages 177-196

17. *Canine Electrocardiograms in Diseases*

- J. P. Varshney

Pages 197-219

3. Feline

1. *Front Matter*

Pages 221-221

2. *Electrocardiography in Cats*

- **J. P. Varshney**

Pages 223-242.
