

TABLE OF CONTENTS – Equine Applied and Clinical Nutrition: Health, Welfare and Performance

- Gastrointestinal physiology / Alfred M. Merritt and Véronique Julliand --
- Endocrine and metabolic physiology / Raymond J. Geor --
- Factors affecting feed intake / Derek Cuddeford -- Water / Nadia F. Cymbaluk --
- Energy systems and requirements / Andrea D. Ellis --
- Amino acids and protein / Kristine L. Urschel and Laurie M. Lawrence --
- Fat and fatty acids / Lori K. Warren and Kelly R. Vineyard --
- Carbohydrates / Rhonda M. Hoffman --
- Vitamins / Annette Zeyner and Patricia A. Harris --
- Macro and trace elements in equine nutrition / Manfred Coenen --
- Feeding stallions and broodmares / Laurie M. Lawrence --
- Feeding the growing horse / William B. Staniar --
- Practical considerations for feeding racehorses / Brian D. Nielson --
- Nutritional management of elite endurance horses / Patricia A. Harris and Harold C. Schott II. --
- Nutritional considerations for aged horses / Sarah L. Ralston and Patricia A. Harris --
- Practical donkey and mule nutrition / David G. Smith and Faith A. Burden --
- Feedstuffs for horses / Jan Erik Lindberg --
- Pastures and pasture management / Annette C. Longland --
- Specialized dietary supplements / Carey A. Williams --
- Feed hygiene and related disorders in horses / Josef Kamphues --
- The manufacturers' role in feed quality and safety: a discussion on methods used in feed manufacturing processes to assure feed hygiene and safety / Ruth Bishop --

Assessment of body condition and bodyweight / Rebecca A. Carter and Alexandra H.A. Dugdale --

Ration evaluation and formulation / Catherine E. Dunnett --

Assessment of nutritional status from analysis of blood and other tissue samples / Ingrid Vervuert and Ellen Kienzle --

Effects of diet on behavior -- normal and abnormal / Becky Hothersall and Christine J. Nicol --

Controversial areas in equine nutrition and feeding management: the editors' views / Patricia A. Harris, Manfred Coenen and Raymond J. Geor --

Laminitis / Raymond J. Geor and Patricia A. Harris --

Obesity / Raymond J. Geor and Patricia A. Harris --

Feeding thin and starved horses / Caroline McGregor Argo --

Hyperlipemia / Andy E. Durham --

Exercise-associated muscle disorders / Patricia A. Harris and José Luis L. Rivero --

Developmental orthopedic disease / Ingrid Vervuert and Andrea D. Ellis --

Oral joint supplements in the management of osteoarthritis / C. Wayne McIlwraith --

Gastric ulceration / Nanna Luthersson and Jenifer A. Nadeau --

Intestinal disease / Andy E. Durham --

Urinary tract disease / Harold C. Schott II. --

Hepatic insufficiency / Andy E. Durham --

Nutritional considerations in grass sickness, botulism, equine motor neuron disease and equine degenerative myeloencephalopathy / Bruce McGorum, Robert S. Pirie and John A. Keen --

Feeding management pre- and post-surgery / Tim Mair --

Feeding orphan and sick foals / Sarah J. Stoneham --

Assisted enteral and parental feeding / Elizabeth A. Carr.
