

TABLE OF CONTENTS – Zoo and Wild Animal Medicine : Current Therapy, Volume 9

Section 1: General

1. The Role of The Veterinary Advisors in Animal Management Plans
2. Risk Analysis Framework Guidance for Wildlife Health Professionals
3. Wildlife Technologies
4. International Sample Movement: Overview of CITES and Selected National Regulations
5. A Practical Guide for Statistics in Wildlife Studies
6. Opportunities to Inspire the Next Generation of Veterinarians
7. Strategic Planning for Zoo Veterinary Operations
8. Organizational Influence: Navigating the Leadership Road for Zoo Veterinarians
9. Contingency Planning for All-Hazards and Foreign Animal Disease
10. Veterinary Occupational Health and Safety in The Zoo and Wildlife Setting
11. Research Study Design

Section 2: Animal Welfare 1

12. Overview of Animal Welfare in Zoos
13. Stress and Animal Welfare – Endocrinological Evaluation
14. A Systematic Approach in Diagnosing Behavior Problems
15. Quality of Life Assessment and End of Life Planning for Geriatric Zoo Animals

Section 3: Conservation Medicine

16. Evaluating Camel Health in Kenya - An Example of One Health in Action
17. Disease Risks to Native Wildlife from Zoos and Aquariums
18. Feral Cat Dilemma
19. The USAID Emerging Pandemic Threats PREDICT Project – Global Detection of Emerging Wildlife Viral Zoonoses
20. Renewable Energy: Effects on Wildlife

Section 4: Reproduction

21. Female Infertility in Zoo Animals
22. Changes in Reproductive Management
23. Issues Surrounding Surplus Animals in Zoos

Section 5: Therapeutics

24. Stem Cells Therapy in Zoo Medicine
25. Compounding Pharmacies

Section 6: Anesthesia and Analgesia

- 26. Sustained-Release and Long-Acting Opioid Formulations of Interest in Zoological Medicine
- 27. New Concepts and Considerations in Emergency Response to Accidental Exposure to Potent Anesthetic Drugs In Zoo And Wildlife Medicine
- 28. Vaporizers and Field Anesthesia Equipment for Free-Ranging Wildlife
- 29. Perianesthetic Monitoring: Equipment and Interpretation

Section 7: Diagnostics

- 30. Wildlife Necropsy Primer
- 31. Use of CT and MRI In Zoological Medicine
- 32. Moving Beyond Survey Radiographs

Section 8: Emerging and Changing Infectious Diseases

- 33. Equine Herpesviruses and Interspecies Infections
- 34. Ebola Virus Disease in Great Apes
- 35. Chagas Disease: Wildlife Infection with Trypanosoma Cruzi In A One Health Context
- 36. The Effects of Climate Change on Disease Spread in Wildlife
- 37. Prion Diseases in Wildlife
- 38. Avian Influenza: A Brief Overview of The Pathobiology and Current Status in Domestic And Non-Domestic Species
- 39. Emerging Reptile Viruses
- 40. Emerging Diseases in Bats
- 41. Zika Virus: A Real Threat for Wildlife?
- 42. An Overview of MERS in the Middle East
- 43. Diseases Risk to Endemic Animals from Introduced Species on Madagascar

Section 9: Infectious Diseases and Parasites

- 44. Techniques for Vaccinating Wildlife
- 45. Brucellosis in North American Wildlife
- 46. Melioidosis In Zoo and Wild Animals

Section 10: Aquatic

- 47. Techniques for Addressing Parasites in Saltwater Aquariums
- 48. Touch-Pools: The Other Side of The Hand
- 49. Sharks and Medicine
- 50. Decompression Medicine in Aquatic Species (Fish and Sea Turtle Focus)

Section 11: Amphibians and Reptiles

- 51. Euthanasia of Ectotherms
- 52. Ranaviral Disease in Reptiles and Amphibians
- 53. Anuran Reproduction
- 54. Minimally Invasive Surgery of Amphibians

55. Medical Aspects of The Hungarian Meadow Viper (*Vipera Ursinii Rakosiensis*) Reintroduction 56. Ophidiomycosis 57. Fibropapillomatosis In Marine Turtles 58. Rehabilitation Medicine of Confiscated Turtles 59. Medical Evaluation of Crocodylians 60. Reptile and Amphibian Analgesia 61. Medical Aspects of Giant Tortoise Relocation in The Galápagos Islands

Section 12: Avian 62. Anti-Fungals In Birds 63. Medical Management of Walk Through Aviaries 64. Systemic Isosporosis In Passerine Birds 65. Bornaviruses In Birds 66. Prosthetic and Orthotic Limbs in Avian Medicine 67. Avian Spirurids 68. Selected Medical Aspects of Bird Reproduction In Ex Situ Conservation

Section 13: Marsupials 69. Tasmanian Devil Facial Tumor Disease 70. Medical Aspects of Potoroid Marsupial Conservation Translocations 71. Macropod Pediatric Medicine

Section 14: Small Mammals 72. White-Nose Syndrome: Cutaneous Invasive Ascomycosis in Hibernating Bats 73. Naked Mole Rat (*Heterocephalus Glaber*) Management and Medicine 74. Immobilization, Health and Current Status of Knowledge of Free-Living Capybaras 75. Xenarthra Immobilization and Restraint

Section 15: Carnivores 76. Update on Field Anesthesia Protocols for Free-Ranging Lions 77. Overview of African Wild Dog (*Lycaon Pictus*) Medicine 78. Medicine of Captive Andean Bear 79. Canine Distemper Vaccination in Non-Domestic Carnivores

Section 16: Great Apes 80. Infectious Diseases of Orangutans in Their Home Ranges and in Zoos 81. Medical Aspects of Chimpanzee (*Pan Troglodytes*) Rehabilitation and Sanctuary Medicine 82. Update on Great Ape Heart Project 83. Great Ape Nutrition

Section 17: Marine Mammals 84. Marine Mammal Viruses 85. Mycobacteria Pinnipedi 86. Lens Diseases and Anesthetic Considerations for Ophthalmologic Procedures in Pinnipeds

Section 18: Ruminants 87. Giraffe Husbandry and Welfare 88. Lameness Diagnosis and Management in Zoo Giraffe 89. Mass Mortality Events Affecting Saiga Antelope (*Saiga Tatarica*) of Central Asia 90. Musk Ox Sedation and Anesthesia 91. Capripoxviruses In Non-Domestic Hoofstock 92. Babesiosis in Cervidae

Section 19: Elephants and Rhinoceros 93. Management of Dental Disease in Elephants 94. Elephant Mycobacteriosis: New Diagnostics and Management 95. Elephant Endotheliotropic Herpesvirus 96. Elephant Pregnancy and Parturition - Normal and Abnormal 97. Elephant Care in Southeast Asia 98. Updates in African Rhinoceros Field Immobilization and Translocation 99. Update on Rhinoceros Nutrition 100. Health of The Forest Rhinoceroses of Southeast Asia: Sumatran And Javan Rhinoceroses.
