

TABLE OF CONTENTS – Infection Control in Small Animal Clinical Practice

Historical Perspective

Epidemiology of Nosocomial Infections

Patient Screening

Hand Hygiene

Surgical Hand Preparation

Personal Protective Equipment

Environmental Cleaning and Disinfection

Infection Prevention and Control in Theatre

Monitoring and Prevention of Surgical-Site Infections

Treatment of Surgical-Site Infections

Open Wound Management

Infection Prevention for Invasive Procedures

Management of the Infectious Patient

Investigation and Management of Outbreaks

Management of the Immunosuppressed Patient

Antibiotic Mechanism of Action and Resistance

Responsible Antimicrobial Usage in Small Animal Practice

Antimicrobial Use and Resistance Surveillance in Companion Animals

Antibiotic Use in Surgical Patients

Antimicrobial Use in Medical (Including Chemotherapy) Patients.
