- Preface
- Acknowledgments
  
- **Part 1. Veterinary Technology: An Overview**
  - **1. Introduction to Veterinary Nursing and Technology: Its Laws and Ethics**
    - Introduction
    - Veterinary Technician Oath
    - History of Veterinary Technology
    - The Veterinary Nurse and Technician Today
    - Education
    - The Veterinary Technician National Examination (VTNE)
    - The Profession of Veterinary Technology and Veterinary Nursing
    - Terminology and the Veterinary Health Care Team
    - Professionalism
    - Professional Organizations and Acronyms
    - Professional Ethics
    - Profession-Related Laws and Regulations
    - Additional Laws Governing Veterinary Practice
  
  - **2. Veterinary Practice Management**
    - Introduction
    - Types of Veterinary Practices
    - Typical Employee Positions
    - Practice Facilities and Workflow
    - Clients and Client Services
    - Management of the Veterinary Practice
    - Summary
  
  - **3. Veterinary Medical Records**
    - Introduction
    - Principles and Functions of the Medical Record
    - Medical and Legal Requirements
    - Format of Veterinary Medical Records

- Components of the Problem-Oriented Veterinary Medical Record
- Management of Electronic Medical Records
- Management of Paper Medical Records
- Management of Ambulatory Practice Records
  
- **4. Occupational Health and Safety in Veterinary Hospitals**
- Introduction
- Safety
- General Workplace Hazards
- Medical and Animal-Related Hazards
- A Dirty Mouth? Precautions for Dentistry Operations
- Radiology
- Anesthesia
- Compressed Gases
- Sharps and Medical Waste
- Hazardous Drugs and Pharmacy Operations
  
- **Part 2. Patient Management and Nutrition**
  
- **5. Animal Behavior**
- Introduction to Behavior and Motivation
- The Roles of Professionals in Behavior
- How Animals Learn
- Behavior Modification
- Animal Development
- Meeting the Needs of Animals
- Common Unwanted Behaviors, Active Prevention, and Intervention
- Common Unwanted Behaviors of Dogs and Cats
- Common Equine Behavior Concerns
- Common Cattle Behavior Concerns
- Small Ruminant Behavior Concern
- Behavior Emergencies
- Learning in the Veterinary Setting
- Fear Free™ Fundamentals
- Happy Visits and Victory Visits
- Behavior and the Emotional Medical Record
- 
- **6. Restraint and Handling of Animals**
- Introduction
- Minimizing Stress
- Animal Stabilization and Restraint
- Introduction to Equine Restraint
- An Introduction to Herd Animals
- Capture and Restraint of Cattle
- Capture and Restraint of Swine
- Capture and Restraint of Small Ruminants
- Capture and Restraint of Avian and Exotic Species
- Restraint of Small Mammals
- Restraint of Reptiles

- **7. History and Physical Examination**
- Introduction
- History and Physical Examination of Small Animals
- History and Physical Examination of Large Animals
  
- **8. Preventive Health Programs**
- Introduction
- Preventive Health Programs for Dogs and Cats
- Preventive Health Program for Horses
- Preventive Health Programs for Livestock Species
- Summary
  
- **9. Animal Nutrition**
- Introduction
- Basics of Nutrition
- Nutritional Evaluation of Small Animals
- Cats and Nutrition
- Feeding Pets
- Life Stage Nutrition for Cats and Dogs
- Feeding Horses and Other Livestock
- Nutrition for Birds and Small Mammals
  
- **10. Animal Reproduction**
- Introduction
- Overview of Female Reproduction
- Overview of Male Reproduction
- Canine Reproduction
- Feline Reproduction
- Equine Reproduction
- Bovine Reproduction
- Ovicaprine (Sheep and Goats) Reproduction
- Camelid Reproduction
- Breeding Soundness Examination of the Male
- Breeding Soundness Examination of the Female
- Summary of Some Interesting Recent and Emerging Advances in Reproduction Biotechnology
  
- **Part 3. Clinical Sciences**
  
- **11. Hematology and Cytology**
- Introduction
- Hematology
- Coagulation Testing
- Cytology
  
- **12. Clinical Chemistry, Serology, and Urinalysis**
- Introduction
- Clinical Chemistry
- Serology
- Urinalysis

- **13. Parasitology**
- Introduction
- Parasitic Diseases of Large and Small Animal Species
- Diagnosis of Ectoparasites
- Diagnosis of Endoparasites
- Ectoparasites of Veterinary Importance
- Endoparasites of Veterinary Importance
- Protozoans of Zoonotic Importance
  
- **14. Clinical Microbiology**
- Introduction
- Microbiological Safety
- Sample Collection and Preservation
- Direct Examination of Microbial Specimens
- Staining Procedures
- Bacterial Culture and Identification
- Methods of Antimicrobial Susceptibility Testing
- Fungal Culture (Mycology)
- Virology
- Molecular Detection of Pathogens
- Nosocomial Infections
  
- **15. Diagnostic Imaging**
- Introduction
- Radiology
- Ultrasonography
- Alternative Imaging Modalities
  
- **16. Basic Necropsy Procedures**
- Introduction
- Necropsy
- Necropsy Reports
- Sample Collection for Laboratory Testing
- Shipping Diagnostic Specimens
- Facilities and Instruments
- Necropsy Procedure for a Small Mammal
- Necropsy Variations
  
- **Part 4. Medical Nursing**
  
- **Chapter 17. Diagnostic Sampling and Therapeutic Techniques**
- Introduction
- Sampling Techniques in the Small Animal
- Administration of Medication in the Small Animal
- Administration of Medication in the Large Animal
- Sampling Techniques in the Large Animal
  
- **Chapter 18. Small Animal Medical Nursing**
- Introduction
- A Veterinary Technician Practice Model: The Nursing Process

- Small Animal Diseases
- **Chapter 19. Large Animal Medical Nursing**
  - Summary
  - Introduction
  - Equine Nursing
  - Common Diseases and Conditions of Horses
  - Care of the Hospitalized Equine Patient
  - Common Diseases and Conditions of Ruminants
  - Common Diseases and Conditions of Swine
  - Common Diseases and Conditions of Camelids
- **20. Veterinary Oncology**
  - Introduction
  - Pathogenesis of Cancer
  - Epidemiology of Cancer
  - Clinical Signs
  - Diagnostics
  - Staging
  - Therapeutic Options
  - Cancer in Horses
  - Cancer in Cattle
- **21. Neonatal Care of Puppies, Kittens, and Foals**
  - Introduction
  - Neonatology of Puppies and Kittens
  - Neonatology of Foals
  - Summary
- **22. Care of Birds, Reptiles, and Small Mammals**
  - Introduction
  - Birds
  - Reptiles
  - Small Mammals
- **23. Rehabilitation and Alternative Medical Nursing**
  - Introduction
  - Nutraceuticals and Chondroprotectants
  - Herbal Medicine
  - Acupuncture
  - Veterinary Spinal Manipulative Therapy
  - Rehabilitation Therapy
  - Summary
- **Part 5. Emergency and Critical Care**
  - **24. Fluid Therapy and Transfusion Medicine**
    - Introduction
    - Fluid Therapy
    - Transfusion Medicine

- **25. Emergency and Critical Care Nursing**
- Introduction
- Emergency and Critical Care Nursing: Small Animal
- Canine and Feline Electrocardiography
- Emergency and Critical Care Nursing: Equine
- Emergency and Critical Care Nursing: Food Animal
  
- **26. Toxicology**
- Introduction
- Managing Poison Emergencies
- Decontamination
- Supportive Care
- Household Hazards
- Dangerous Plants
- Pesticides
- Antifreeze Products
- Human Medications
- Drugs of Abuse
  
- **27. Wound Management and Bandaging**
- Wound Healing
- Small Animal Wound Management
- Large Animal Wound Management
  
- **Part 6. Anesthesia, Analgesia, and Pharmacology**
  
- **28. Pharmacology and Pharmacy**
- Introduction
- Types of Drugs
- Drug Administration
- Dosage Terminology
- Basic Pharmacokinetics
- Basic Pharmacodynamics
- Impact of Disease on Drug Pharmacokinetics
- Aging and Drug Pharmacokinetics
- Drug Nomenclature
- Systemic Approach to Drug Classification
- Regulatory Pharmacology
- The Veterinary Pharmacy
- Prescribing and Dispensing Drugs
  
- **29. Pain Management**
- Introduction
- The Role of the Veterinary Technician as a Patient Advocate
- The Science of Pain Management
- Treatment of Pain in Small Animals
- Treatment of Pain in Large Animals
- Species-Specific Information
- Summary

- **30. Veterinary Anesthesia**
- Inhalant Anesthetics
- Introduction
- What Is Anesthesia?
- Patient Preparation
- Anesthetic Agents
- Anesthesia Equipment
- Principles of Endotracheal Intubation
- Monitoring the Anesthetized Patient
- Small Animal Anesthesia
- Equine Anesthesia
- Ruminant Anesthesia
- Manual and Mechanical Ventilation
- Anesthetic Problems and Emergencies
  
- **Part 7. Surgical Nursing**
  
- **31. Surgical Instruments and Aseptic Technique**
- Introduction
- Instrumentation
- Aseptic Technique
  
- **32. Surgical Assistance and Suture Material**
- Introduction
- General Concepts in Veterinary Surgical Assisting
- Preoperative Preparation
- Intraoperative Techniques and Duties
- Suture Material
- Postoperative Management
- Surgical Assisting for Equine Patients
  
- **Chapter 33. Small Animal Surgical Nursing**
- Introduction
- Preoperative Patient Assessment
- Surgical Preparation and Animal Positioning
- Common Surgical Procedures
- Elective Versus Nonelective Surgery
- Tail Docking and Dewclaw Removal in Puppies
- Tail Docking and Dewclaw Removal in the Adult Dog
- Feline Onychectomy
- Celiotomy
- Gastrointestinal Surgery
- Gastric Dilatation–Volvulus
- Ovariohysterectomy in Dogs and Cats
- Pyometra
- Canine Castration
- Feline Castration
- Cesarean Delivery
- Cystotomy
- Urethrostomy

- Hernias
- Lumpectomy
- Removal of Mammary Neoplasia
- Amputation
- Care of the Neurologic Patient
- Orthopedic Surgery
- Client Education
- Guidelines for Discharge Instructions
  
- **Chapter 34. Large Animal Surgical Nursing**
- Introduction
- Surgical Nursing of Horses
- Surgical Considerations
  
- **35. Veterinary Dentistry**
- Introduction
- Ethical and Legal Aspects
- Dental Morphology
- Oral Examination and History
- Dental Radiography
- Periodontal Disease
- Periodontal Debridement
- Power Scaling
- Hand Scaling
- Polishing
- Regional Nerve Blocks for Oral Surgery in Dogs and Cats
- Periodontal Surgery
- Home Care
- Exodontics
- Advanced Dental Procedures
- Specific Conditions in Dogs and Cats
- Equine Dentistry
  
- **Part 8. End of Life**
  
- **Chapter 36. Geriatric and Hospice Care: Supporting the Aged and Dying Patient**
- Geriatric Dogs and Cats
- The Aging Process
- When Are Dogs and Cats Considered to Be Senior or Geriatric?
- Physiologic Changes Associated With Aging
- Effects of Aging on Organ Systems
- Cognitive Impairment and Other Behavioral Issues
- Management Strategies to Improve Quality of Life
- Hospice and Palliative Care
- Companion Animal Death and Dying
- Geriatric Horses
- Physical Examination
- Common Problems in Aging Horses
- Chronic Diseases of the Geriatric Horse

- Management, Nutrition, and Nursing Care of the Geriatric Horse
- End-of-Life Issues
  
- **37. The Human–Animal Bond and Euthanasia**
- Introduction: The Human–Animal Bond
- Bond-Centered Care
- The Veterinary Technician’s Roles in End-of-Life Cases
- Decisions: Goals of Care, Euthanasia, and Natural Death
- Euthanasia: The Art of Providing a Good Death
- Hospice-Supported Natural Death
- Aftercare and Memorialization
- The Grieving Human and the Grieving Animal: When the Bond Changes
- The Critical Need for Self-Care
- Summary: Key Points for This Chapter
- Index
- IBC.
