

TABLE OF CONTENTS

Methods for Ecological Research on Terrestrial Small Mammals

- Cover
- Half Title
- Title
- Copyright
- Dedication
- Contents
- Acknowledgments
- 1. Introduction
- 2. Passive Methods for Small Mammal Research
- 3. Active Detection Techniques
- 4. Lethal and Nonlethal Sampling for Genetics, Disease Studies, and Curatorial Collections
- 5. Methods for Marking
- 6. Recording Anatomical and Reproductive Features
- 7. Design of Trapping Studies
- 8. Studying Movements
- 9. Estimating Population Demographics
- 10. Communities and the Environment
- 11. Dietary Studies on Small Mammals
- 12. Small Mammal Behaviors: Personality, Activity, and Fear
- 13. Predator-Mediated Sampling of Small Mammal Communities
- 14. Ecological and Taxonomic Study of Morphology
- 15. Genetic Studies on Small Mammals
