

# Table of Contents

- Preface

Dedication

## **1. Arthropod-borne diseases**

Mosquito Vectors

The Arboviruses: Arthropod-Borne Viral Infections

Arthropod-Borne Bacterial Infections

The Relapsing Fevers

Arthropod-Borne Parasitic Infections

Nematodes: Filarial Diseases

## **2. Infections acquired percutaneously**

Soil

Water

Sex

Bacterial

Other Cutaneous or Mucous Membrane Contact

## **3. Infections acquired through the gastrointestinal tract**

Viral Infections

Bacterial Infections

Protozoal Infections

Fungi

Helminth Infections

Parasitic Crustaceans

## **4. Infections acquired through airborne transmission**

Viral Infections

Bacterial Infections

Fungal Infections

## **5. Ectoparasites**

Mites

Lice

Bed Bugs

Fleas

Myiasis

## **6. Bites, stings, venoms, toxins**

Marine Invertebrates

Marine Vertebrates

Terrestrial Invertebrates

Terrestrial Vertebrates

Plants

## **7. Nutrition**

Malnutrition

Vitamin and Mineral Deficiencies

Toxin Ingestion

## **8. Non-communicable disease**

## **9. Diseases of unusual or uncertain aetiology**
