

TABLE OF CONTENTS – Physical Therapy for Horses: A Visual Course in Massage, Stretching, Rehabilitation, Anatomy, and Biomechanics

Foreword

Bettina Hoy

Foreword (for 4th Edition)

Victoria Max-Theurer

Preface

1 Introduction to Physical Therapy for Horses

Why the Current Trend Toward Physical Therapy?

When and Where Can Physical Therapy Be Applied?

Back and Neck Problems

Unnatural Head and Tail Carriage

Stiff or Blocked Joints

Instability in the Body

Tendon, Ligament, and Muscle Injuries

Muscular Atrophy and Hypertrophy

Organ Dysfunction

Teeth Problems

Wound and Scar Tissue

"Mystery" Lameness

General Difficulties Under Saddle

Long-Term Stiffness

Resistance

Decline in Performance

Headshaking

Playing with the Tongue and Grinding the Teeth

Uneven Rhythm

What Causes Injury and Tension?

Trauma

Hoof Conformation and Shoeing

Tack and Equipment

Overstressing

Stabling Conditions

Inadequate Warm-Up and Cool-Down

Incorrect Riding

The Goal of Physical Therapy: What Can Physical Therapy

Accomplish?

Improving Circulation and Metabolism

Avoiding/Releasing Adhesions

Promoting Relaxation

Relieving Pain

Restoring Mobility

Restoring Performance Capability

Prevention

2 The Anatomy of the Musculoskeletal System

The "Passive" Musculoskeletal System

- Bones

- Joints

- Clicking Joints

- The Skeleton

The "Active" Musculoskeletal System

- Joint Capsules

- Ligaments

- Muscles

- Muscle Development

- Muscles and Tendons

- Connective Tissue/Fascia

- How the Fascia Works

- Muscle Function

- Types of Muscle Fiber

- Types of Muscle Contractions

- Stress Limits

- Sore Muscles

- Muscle Tone (Basic Engagement)

- Muscular Interplay

3 Biomechanics

The Head

- Skull Movement (Cranial Rhythmic Impulse-CRI)

- Jaw Joint

- Hyoid (Tongue) Bone

The Spine

- The Curve of the Spine

- The Nuchal Ligament

- The Horse's Carrying Ability

- The Movement of the Spinal Column

- The Muscles of the Spinal Column

- The Deep, Short Muscles of the Spinal Column

- The Large, Long Muscles of the Spinal Column

- Abdominal Muscles

- Loin Muscles

- A Blockage in the Spinal Column

Cervical Vertebrae

- The Poll

- Biomechanics of the Poll

- The Poll Muscles

- Blockages in the Poll

- The Cervical Vertebrae (C3--C7)

- Biomechanics of the Neck

- The Neck Muscles

- Head and Neck Extensors (Lifting)

- Head and Neck Flexors (Lowering)

- Blockages in the Neck

Thoracic Spine and Breastbone

- Biomechanics of the Thoracic Spine
- Muscles of the Thoracic Spine and Breastbone
- Blockages in the Thoracic Spine
- The Lumbar Spine
 - Biomechanics of the Lumbar Spine
 - Musculature of the Lumbar Spine
 - Disorders of the Lumbar Spine
- The Limbs
- The Hindquarters
 - The Sacroiliac Joint
 - Biomechanics of the Sacroiliac Joint
 - The Sacrum
 - The Pelvis
 - Disorders of the Sacroiliac Joint
 - The Hip Joint
 - Hip Joint Biomechanics
 - Disorders of the Hip Joint
 - The Stifle Joint
 - Biomechanics of the Stifle
 - Disorders of the Stifle Joint
 - The Hock
 - Biomechanics of the Hock
 - Disorders of the Hock
 - The Joints of the Lower Limb
 - The Musculature of the Hindquarters
 - Muscles That Move the Hind Leg Forward
 - Muscles That Move the Hind Leg Back
 - The Inner Upper Thigh Muscles (Adductors)
- The Forehand
 - Biomechanics of the Forehand
 - Upper Forehand
 - Shoulder Blade
 - Shoulder Joint
 - Elbow Joint
 - Muscles of the Upper Forehand
 - Muscles That Suspend the Trunk
 - Muscles That Suspend the Limbs
 - Muscles That Move the Limbs Forward
 - Muscles That Move the Limbs Backward
 - The Lower Forehand
 - Knee Joint
 - Joints of the Lower Limb
 - Musculature of the Lower Limb
 - Flexors of the Lower Limb
 - Extensors of the Lower Limb

4 The Nervous System

- The Anatomy of the Nervous System
 - The Central Nervous System

- The Peripheral Nervous System
- The Sensory Neurons
- The Motor Neurons
- Proprioceptive Receptors (Positional Reflexes)
- The Autonomic Nervous System
- The Sympathetic Nervous System
- The Parasympathetic Nervous System
- The Nervous System and Movement

5 Observation

- General Inspection While Standing
- Detailed Inspection While Standing
 - Observing from the Front
 - From the Side at a Standstill
 - From the Back at a Standstill
 - From Above at a Standstill
- In Movement
 - The Hindquarters at the Walk
 - The Forehand at the Walk
 - From the Side at the Walk
 - Through Tight Turns at Walk
 - While Backing Up
- Observing at Trot
- At Trot on the Longe
- At Canter on the Longe
- Observing Under Saddle

6 Palpation

- Practice on the Horse
- How Hard Should You Press?
- Techniques to Palpate the Horse
- Triggering Pain
- How Should a Relaxed Muscle Feel?
- Let's Get Started!

7 Massage---The Art of Healing with Your Hands

- The Effects of Massage
- Where Should You Massage?
- What Tools Should You Use?
- How Hard Should You Press?
- How Often Should You Massage?
- How Long Should a Massage Last?
- When to Massage---Before or After Work?
- The First Time!
- Pain or Discomfort
- Are Side Effects Possible?
- When Shouldn't You Give a Massage?
- Massage in Practice
- Choosing Your Technique
 - 1 Long Strokes

- 2 Long Strokes with the Fingers
- 3 Compression
- 4 Kneading
- 5 Twisting
- 6 Direct Pressure
- 7 Circling
- 8 Shaking/Vibration
- 9 Knocking/Chopping
- Special Massages
 - The Head
 - The Limbs
 - The Longissimus Dorsi and Abdominal Muscles

8 Mobilizing and Stretching

- What Causes Shortening of Soft Tissue?
- Mobilization
- Active Stretching
- Passive Stretching
- The Stretching Reflex
- When Should I Mobilize/Stretch?
- How Often Should I Mobilize/Stretch?
- How Long Should I Mobilize/Stretch?
- When Not to Mobilize/Stretch?
- What Should Be Avoided When Mobilizing/Stretching?
- Are There Side Effects?
- Implementation
- A Hint for You!
- The Effects of Mobilizing and Stretching
- Exercises for Mobilization and Stretching
 - Mobilizing Exercises
 - Mobilizing the Forelimbs
 - Mobilizing the Hind Limbs
 - Mobilizing the Jaw
 - Mobilizing the Spine
 - Mobilizing the Head, Poll, and Neck in Flexion
 - Mobilizing the Head, Poll, and Neck in Longitudinal Bend
 - Mobilizing the Head, Poll, and Neck in Extension
 - Mobilizing the Thoracic and Lumbar Spine While Lifting
 - Lifting the Back
 - Lifting the Withers
 - Mobilizing the Thoracic and Lumbar Spine While Lifting
 - Mobilizing the Thoracic and Lumbar Spine in Extension
 - Mobilizing the Tail
- Stretching Exercises
 - Stretching the Forelegs
 - Stretching the Forelegs to the Front
 - Stretching the Forelegs to the Back
 - Stretching the Forelegs to the Outside
 - Stretching the Forelegs Forward and Across
 - Stretching the Forelegs Back and Across

- Stretching the Hind Limbs
- Stretching the Hind Limbs Forward
- Stretching the Hind Limbs to the Back
- Crossing the Hind Limbs Under the Belly
- Stretching the Hind Limbs to the Outside
- Stretching the Tail Back

9 Stabilization and Strengthening

- What is Physical Stability?
- What Causes Instability?
- When to Stabilize
- How Often and for How Long?
- When Shouldn't Strengthening Exercises Be Applied?
- Exercises for Stabilizing and Strengthening
 - Stabilizing the Forehand
 - Lifting the Withers
 - Shifting Weight to the Forehand
 - Stabilizing the Hindquarters
 - Strengthening the Abdominal and Upper Thigh Muscles
 - Pulling the Tail
 - Shifting Weight to the Hindquarters

10 Physical Therapy

- Ice Therapy
- Hydrotherapy
- Heat Therapy
 - Fango
 - Hot Rolls
 - Solarium Therapy
- Matrix-Rhythm Therapy
- Magnetic Therapy
- Laser Therapy
- Ultrasound Therapy
- Electric Muscle Stimulation
- TENS (Transcutaneous Electrical Nerve Stimulation)
- Medium-Frequency Electrotherapy
- Kinesiology Tape

11 Rehabilitation

- Passive Rehabilitation
- Active Rehabilitation
- The Plan
- Purposeful Rehabilitation
- Methods for Active Rehabilitation
 - Equibands®
 - Longeing
 - Double Longeing/Long-Lining
 - Round-Penning

Horse Walker
Treadmill
Riding

12 Preventive Measures

Tying
Saddle Fit
 Saddle Test
Saddle Pads
The Girth
Bridle Fit
Auxiliary Reins
 What Happens When You Ride with Draw Reins?
 Auxiliary Reins for Support
Teeth
Shoeing
Mounting
Warming Up
Cooling Down
Anatomy Tables (Skeletal and Muscular)
Glossary
Acknowledgments
Index.
