TABLE OF CONTENTS – Pocketbook for Veterinary Nurses, 2nd Edition

Foreword

Preface

A few notes on using this book

A

Anaesthetic agents

Anaesthetic checklists

Anaesthetic emergencies

Anaesthetic equipment

ASA physical status and classifications scale

B

Bandaging

Biochemistry reference ranges

Blood cell types

Blood collection tubes

Blood pressure measurement

Blood pressure values for dogs and cats

Blood sampling

Blood smear preparation

Blood staining procedures

Blood transfusion

Body condition scoring scheme -- cats

Body condition scoring scheme -- dogs

Body condition scoring scheme -- rabbits

C

Calculating blood loss

Cleaning the operating theatre

Clinical audits

D

Dental recording chart -- cat

Dental recording chart -- dog

E

Ear cytology

Electrocardiography

F

Faecal examination

Feeding tube selection

Feeding tubes -- nursing considerations

Fine needle aspiration of a mass

Fluid therapy

Folding gowns and drapes

G

Gowning and gloving

H

Haematology reference ranges

Hair and skin sampling procedures

Hand hygiene

I

Infection control

Intravenous catheter management

L

Laboratory samples -- packaging for external analysis

M

Mucous membrane colour

Muscle condition scoring scheme -- cats

Muscle condition scoring scheme -- dogs

O

Opioids

P

Packed Cell Volume -- how to perform a PCV

Pain assessment

Pain scoring -- cat

Pain scoring -- dog

Pain scoring -- rabbit

Patient assessment -- daily tasks

Patient assessment -- routine parameters

Physiotherapy

PROTECT ME

R

Radiographic film faults

Radiographic positioning

Radiographic positioning -- advanced

Recumbent patient care

Resting energy requirement (RER) calculation

S

Scrubbing

Sterilization -- packing instruments

Sterilization indicators

Surgical checklist

Sutures

T

Temperature conversion

Theatre -- maintenance of asepsis

Total solids -- using a refractometer

U

Urinalysis

Urinary catheters

Urine specific gravity (USG) normal values

V

Vernier scale

Vital signs -- normal ranges in common species

W

Wound drain management

Wound dressings

Wound recognition and treatment

References

Emergency doses.
