

TABLE OF CONTENTS – Poultry Science

1 Poultry nutrition

Marcin Barszcz, Anna Tuśnio and Marcin Taciak
Requires Authentication

2 Antibiotics in avian care and husbandry-status and alternative antimicrobials

Adam Lepczyński, Agnieszka Herosimczyk, Mateusz Buclaw and Michalina Adaszyńska-Skwirzyńska
Requires Authentication

3 Health in poultry- immunity and microbiome with regard to a concept of one health

Aleksandra Dunisławska, Elżbieta Pietrzak, Aleksandra Beldowska and Maria Siwek
Requires Authentication

4 The role of analytical chemistry in poultry science

Przemysław Kosobucki, Waldemar Studziński and Sanling Zuo
Requires Authentication

5 Ecological footprint of poultry production and effect of environment on poultry genes

Aleksandra Dunisławska, Ramesha Wishna Kadawarage and Maria Siwek
Requires Authentication

6 The science of genetically modified poultry

Mariam Ibrahim and Katarzyna Stadnicka
Requires Authentication

7 Emerging in ovo technologies in poultry production and the re-discovered chicken model in preclinical research

Stadnicka Katarzyna, Akhavan Niloofar, Bednarczyk Marek and Krajewski Krzysztof
Requires Authentication

8 Quality of poultry meat- the practical issues and knowledge based solutions

Katarzyna Stadnicka and Joanna Bogucka
