About the authors ix

Foreword x

Preface xi

Acknowledgements xii

List of abbreviations xiv

1 Veterinary Parasitology: basic concepts 1

1.1 Introduction 1

1.1.1 What is Veterinary Parasitology? 2

1.2 Parasitism and parasites 2

1.2.1 Parasitism 2

1.2.2 Classification 3

1.2.3 Host–parasite relationships 4

1.3 Host–parasite interactions 6

1.3.1 Host defences 6

1.3.2 Parasite evasion of immunity 9

1.4 Parasitic disease 10

1.4.1 The host–parasite balance 10

1.4.2 Why parasites are important 10

1.4.3 Pathogenic mechanisms 11

1.5 Diagnostic techniques 12

1.5.1 Direct detection methods 12

1.5.2 Indirect detection methods 13

1.5.3 Limitations 16

1.6 Treatment and control 16

1.6.1 Key concepts 16

1.6.2 Chemotherapy 17

1.6.3 Resistance to parasiticides 18

1.6.4 Integrated parasite management 19

1.6.5 Vaccination 19

1.6.6 Alternative technologies 21

1.6.7 Concluding remarks 23

2 Arthropods part 1: introduction and insects 25

2.1 Introduction 25

2.2 Insects 26

2.2.1 Key concepts 26

2.2.2 Fleas (Siphonaptera) 32

2.2.3 Lice (Phthiraptera) 36

2.2.4 Bugs (Hemiptera) 39

2.2.5 Biting and nuisance flies (Diptera) 40

2.2.6 Myiasis-producing dipterans 48

3 Arthropods part 2: ticks, mites and ectoparasiticides 57

3.1 Introduction 57

3.2 Ticks 57

3.2.1 Key concepts 57

3.2.2 Hard ticks (Ixodidae) 62

3.2.3	Soft ticks (Argasidae)	65
3.3	Mange mites	65
3.3.1	Key concepts	66
3.3.2	Subsurface mites	66
3.3.3	Surface mites	69
3.4	Other arthropods	74
3.5	Ectoparasiticides	75
3.5.1	Key concepts	75
3.5.2	Some important ectoparasiticides	77
3.5.3	Insect growth regulators	79
3.5.4	Problems with ectoparasiticides	79
4	Protozoa (single-celled parasites)	81
4.1	Introduction	81
4.2	Key concepts	82
4.2.1	Classification	82
4.2.2	Locomotion	82
4.2.3	Nutrition	84
4.2.4	Transmission	84
4.2.5	Reproduction	84
4.3	Ciliates	84
4.4	Amoebae	85
4.5	Flagellates	86
4.5.1	Haemoflagellates	86

4.5.2 Other flagellates	90
4.6 Coccidia	94
4.6.1 General characteristics	94
4.6.2 <i>Eimeria</i>	95
4.6.3 Coccidiosis	98
4.7 Tissue cyst-forming coccidia	99
4.7.1 <i>Sarcocystis</i>	100
4.7.2 <i>Besnoitia</i>	102
4.7.3 <i>Toxoplasma</i>	103
4.7.4 <i>Neospora</i>	106
4.8 Blood-borne apicomplexans	107
4.8.1 <i>Babesia</i>	108
4.8.2 <i>Theileria</i>	112
4.9 Cryptosporidia	113
4.9.1 <i>Cryptosporidium parvum</i>	113
4.9.2 Avian cryptosporidiosis	114
4.10 Antiprotozoal drugs	115
4.10.1 Key concepts	115
4.10.2 Anticoccidial drugs	115
5 Platyhelminthes ('flatworms')	117
5.1 Introduction	117
5.2 Cestodes	118
5.2.1 Key concepts	118

5.3 Cyclophyllidean tapeworms	119
5.3.1 Cyclophyllidean life-cycle	119
5.3.2 Metacestodes	121
5.3.3 <i>Taenia</i>	122
5.3.4 <i>Echinococcus</i>	126
5.3.5 Other cyclophyllidean tapeworms	130
5.4 Pseudophyllidean tapeworms	133
5.4.1 Pseudophyllidean life-cycle	133
5.4.2 Important pseudophyllideans	133
5.5 Cestocidal drugs	135
5.5.1 Praziquantel	135
5.6 Trematodes	135
5.6.1 Digenean trematodes	136
5.6.2 <i>Fasciola</i>	138
5.6.3 Other digenean trematodes	142
5.7 Flukicidal drugs	145
5.7.1 Benzimidazoles	146
5.7.2 Salicylanilides	146
6 Nematoda ('roundworms') part 1: concepts and bursate nematodes	147
6.1 Introduction	147
6.2 Key concepts	147
6.2.1 Recognition features	148
6.2.2 General biology	152

6.3 Bursate nematodes 153

6.3.1 Bursate superfamilies 153

6.3.2 Trichostrongyloidea 159

6.3.3 Strongyloidea 164

6.3.4 Ancylostomatoidea (hookworms) 171

6.3.5 Metastrongyloidea (lungworms) 173

7 Nematoda ('roundworms') part 2: nonbursate nematodes and anthelmintics 181

7.1 Nonbursate nematodes 181

7.1.1 Nonbursate superfamilies 182

7.1.2 Rhabditoidea 182

7.1.3 Ascaridoidea (ascarids) 184

7.1.4 Oxyuroidea (pinworms) 192

7.1.5 Spiruroidea and Filarioidea 193

7.1.6 Trichinelloidea 200

7.2 Other parasitic worms 205

7.2.1 Acanthocephala 205

7.2.2 Leeches 206

7.3 Anthelmintics 207

7.3.1 Levamisole group 207

7.3.2 Macrocyclic lactones 208

7.3.3 Benzimidazoles 209

7.3.4 Newer chemical groups 211

8 Clinical parasitology: farm animals 213

- 8.1 Introduction 213
- 8.2 Ruminants 213
 - 8.2.1 Digestive system 214
 - 8.2.2 Respiratory system 225
 - 8.2.3 Cardiovascular system 228
 - 8.2.4 Integument 230
 - 8.2.5 Other body systems 235
- 8.3 Pigs (swine) 237
 - 8.3.1 Internal organs 238
 - 8.3.2 Integument 240
- 8.4 Poultry 241
 - 8.4.1 Internal organs 242
 - 8.4.2 Integument 246

9 Clinical parasitology: companion animals and veterinary public health 249

- 9.1 Equine parasitology 249
 - 9.1.1 Digestive system 249
 - 9.1.2 Respiratory and circulatory systems 254
 - 9.1.3 Integument 255
 - 9.1.4 Other body systems 260
- 9.2 Small animal parasitology 261
 - 9.2.1 Digestive system 261
 - 9.2.2 Respiratory and circulatory systems 264
 - 9.2.3 Integument 268

9.2.4 Other body systems 273

9.3 Veterinary public health 274

9.3.1 Food-borne zoonoses 274

9.3.2 Environmental zoonoses 278
