

TABLE OF CONTENTS

-
- Preface
- **Chapter 1. Brief Historical Overview on the Use of Animals in Research**
 - 1.1. Introduction
 - 1.2. Early Attitudes Toward Animal Health and Disease
 - 1.3. Development and Emergence of New Animal Models
 - 1.4. Improvements in Approaches to Animal Care
 - 1.5. Summary
- **Chapter 2. Philosophical and Ethical Foundations**
 - 2.1. Basic Approaches
 - 2.2. Animal Welfare Versus Animal Rights
 - 2.3. Opposition to and Benefits of Animal Experimentation
 - 2.4. Professional Ethics Relating to Biomedical Research
- **Chapter 3. Regulations and Guidelines**
 - 3.1. Introduction
 - 3.2. US Animal Welfare Act
 - 3.3. Public Health Service Policy
 - 3.4. FDA Good Laboratory Practices
 - 3.5. Other Laws, Regulations, and Policies
 - 3.6. Fish and Wildlife Service and NIH Positions on Chimpanzees
 - 3.7. Professional and Scientific Associations
 - 3.8. International Laws and Regulations
 - 3.9. Conclusions
- **Chapter 4. Institutional Animal Care and Use Committee**
 - 4.1. Purpose and Function
 - 4.2. Committee Composition
 - 4.3. IACUC Review of Proposed Activities and Projects
 - 4.4. Periodic Review of the Animal Care and Use Program and Facilities
 - 4.5. Investigation of Concerns Regarding the Use and Treatment of Vertebrate Animals
 - 4.6. Sample Size Estimation in Laboratory Animal Experiments
- **Chapter 5. Experimental Variables**
 - 5.1. The Research Environment
 - 5.2. Environmental Enrichment
 - 5.3. Animal Health Monitoring Program
 - 5.4. Summary
- **Chapter 6. Model Selection**
 - 6.1. Selection Criteria

- 6.2. Types of Models
- 6.3. Spontaneous Mutation Models
- 6.4. Random Mutation Models
- 6.5. Genetically Manipulated Models
- 6.6. Chemically Induced Models
- 6.7. Physically Induced Models
- 6.8. Surgical Models
- 6.9. Behavioral Models
- 6.10. Production Models
- **Chapter 7. Commonly Used Animal Models**
 - 7.1. The Mouse
 - 7.2. The Rat
 - 7.3. The Rabbit
 - 7.4. Zebrafish
 - 7.5. Amphibians and Reptiles
 - 7.6. Birds
 - 7.7. Other Small Mammals
 - 7.8. Summary
- **Chapter 8. Common Technical Procedures in Rodents**
 - 8.1. Handling and Restraint Methods
 - 8.2. Identification
 - 8.3. Common Technical Procedures
 - 8.4. Rodent Anesthesia
 - 8.5. Rodent Surgery
 - 8.6. Euthanasia
 - 8.7. Necropsy
 - 8.8. Summary
- **Chapter 9. Considerations for Use of Vertebrates in Field Studies**
 - 9.1. Reasons for Conducting Field Research
 - 9.2. Sources for Specific Technique Information
 - 9.3. Initial Steps for Undertaking Field Research Involving Vertebrates
 - 9.4. Observational Techniques
 - 9.5. Capturing Animals
 - 9.6. Handling Animals
 - 9.7. Identification and Marking of Animals
 - 9.8. Conclusion
- **Chapter 10. Personnel Safety in the Care and Use of Laboratory Animals**
 - 10.1. Introduction
 - 10.2. Occupational Health and Safety Programs
 - 10.3. Hazards Associated With Animal Research
 - 10.4. Best Practices for Prevention
 - 10.5. Conclusions: Personnel Engagement and Awareness

- **Chapter 11. Thesis Development**
 - 11.1. Preparation
 - 11.2. Thesis Sections
 - 11.3. Finalizing the Thesis
 - 11.4. Conclusion
- Glossary of Terms and Acronyms
- Index.
