

TABLE OF CONTENTS

Quick Guidebook to Canine and Feline Ophthalmology, 2nd Edition

Organisation of this guidebook

How to use this guidebook

Key for the Quick guidebook to canine and feline ophthalmology

1 Anatomical structures

Diagram of the eye and its adnexa

Lacrimal apparatus diagram

2 Eyelids

Palpebral agenesis

Palpebral dermoid

Entropion in a Shar Pei

Entropion in a Chow Chow

Entropion (surgical techniques)

Medial entropion

Lateral entropion

Cicatricial entropion

Entropion due to lack of support

Ectropion

Entropion/ectropion

Entropion/ectropion. Diamond eye

Euryblepharon

Palpebral laceration

Fungal blepharitis
Bacterial blepharitis
Parasitic blepharitis
Blepharitis (hypersensitivity)
Immune blepharitis
Palpebral neoplasms
Distichiasis
Districhiasis
Ectopic cilia
Trichiasis
Trichomegaly
Palpebral ptosis
Lagophthalmos
Chalazion
Hordeolum
Lentigo
Foreign bodies

3 Nictitating membrane

Prolapse of the nictitating membrane gland
Cartilage eversion
Plasmoma
Follicular conjunctivitis
Granulomas due to Leishmania
Lacerations/tears
Protrusion of the nictitating membrane

Neoplasms

Foreign bodies

Depigmentation of the free edge of the nictitating membrane

4 Conjunctiva

Conjunctival dermoid

Conjunctival cysts

Conjunctivitis

Keratoconjunctivitis sicca

Symblepharon

Drug plaques

Mucinosiis

Haemorrhages

Chemosis

Wounds

Neoplasms

5 Cornea and sclera

Superficial corneal ulcer

Refractory corneal ulcer

Stromal ulcer

Deep corneal ulcer

Descemetocoele

Corneal perforation

Melting corneal ulcers

Chronic superficial keratitis

Keratoconjunctivitis sicca

Pigmentary keratitis
Feline eosinophilic keratitis
Corneal dystrophy
Corneal degeneration
Corneal oedema
Neoplasms
Foreign bodies
Feline corneal sequestrum

Dermoid cyst
Corneal abscess
Episcleritis

6 Uveal tract

Iris hypoplasia
Iris heterochromia
Persistent pupillary membrane
Uveitis
Iris cysts
Neoplasms
Iris atrophy
Melanosis
Hyphaema

7 The lens

Microphakia
Coloboma
Nuclear sclerosis

Cataracts

Lens subluxation

Lens luxation

8 Ocular fundus

Normal ocular fundus

Retinal detachment

Retinal haemorrhage

Retinal dysplasia

Optic nerve hypoplasia

Optic neuritis

Retinal degeneration

9 Globe and orbit

Enophthalmos

Exophthalmos

Atrophy of the globe

Buphthalmos

Retrobulbar abscess

Orbital cellulitis

Orbital neoplasms

Foreign bodies

Proptosis

10 Lacrimal apparatus

Epiphora

Keratoconjunctivitis sicca

Imperforate lacrimal punctum

Hypoplasia

Obstruction

Dacryocystitis

11 Glaucoma

Diagnosis

Classification

Clinical signs

Differential diagnosis

Treatment

Sequelae

Bibliography.
