

## TABLE OF CONTENTS – Reproductive Biology of the Crocodylia

- Cover image
- Title page
- Table of Contents
- Copyright
- Acknowledgments
- Introduction
  
- **Chapter 1. Phylogeny and fossil history**
- Abstract
  
- **Chapter 2. History and growth of knowledge**
- Abstract
- Content
- Early anatomical studies
  
- **Chapter 3. Life history and ecology**
- Abstract
- Table of Contents
- Multiple paternity
- Nest-site fidelity
- Some unique and unusual features of crocodylians or some crocodylian oddities
  
- **Chapter 4. Growth, sexual maturity, and senescence**
- Abstract
- Table of Contents
- Senescence
- Sexual maturity
  
- **Chapter 5. Anatomy of the male reproductive tract**
- Abstract
  
- **Chapter 6. Male reproductive cycle**
- Abstract
  
- **Chapter 7. Anatomy of the female reproductive tract**
- Abstract
- Table of Contents
- The ovary
- The oviducts
- Sperm storage
  
- **Chapter 8. Female reproductive cycle**
- Abstract
- Table of Contents

- Courtship behavior
- Vitellogenesis
- Nesting
- Eggs
- Clutch size
  
- **Chapter 9. Sex determination, embryos, and teratology**
- Abstract
  
- **Chapter 10. Captive breeding, farming, and ranching**
- Abstract
- Content
- Double clutches
  
- **Chapter 11. Environmental contamination**
- Abstract
- Content
- Heavy metals
  
- **Chapter 12. Conservation**
- Abstract
  
- References
- Index.
