

# TABLE OF CONTENTS

Preface

1:Prolegomena

2:A very brief history of respiratory biology

3:A Primer on respiratory physiology

4:Structure, function, and evolution of respiratory proteins

5:Coping with extremes

6:Respiratory faculties of aquatic invertebrates

7:Respiratory faculties of amphibious and terrestrial invertebrates

8:Control of breathing in invertebrates

9:The evolution of water-breathing respiratory faculties in invertebrates

10:The evolution of air-breathing respiratory faculties in invertebrates

11:Respiratory faculties of aquatic craniotes

12:Respiratory faculties of amphibious and terrestrial craniotes

13:Control of breathing in craniotes

14:The evolution of water-breathing respiratory faculties in craniotes

15:The evolution of air-breathing respiratory faculties in craniotes

16:The Bottom Line.
