

# TABLE OF CONTENTS

## Robbins and Cotran Pathologic Basis of Disease 10th Edition

- Cover image
- Title page
- Table of Contents
- Endsheets
- Copyright
- Dedication
- Contributors
- Preface
- Acknowledgments
- Contents
- Chapter 1: The Cell as a Unit of Health and Disease
  - The Genome
  - Cellular Housekeeping
  - Cellular Metabolism and Mitochondrial Function
  - Cellular Activation
  - Growth Factors and Receptors
  - Extracellular Matrix
  - Maintaining Cell Populations
- Chapter 2: Cell Injury, Cell Death, and Adaptations
  - Introduction to Pathology
  - Overview of Cellular Responses to Stress and Noxious Stimuli
  - Reversible Cell Injury
  - Cell Death
  - Mechanisms of Cell Injury
  - Clinicopathologic Correlations: Selected Examples of Cell Injury and DEATH
  - Adaptations of Cellular Growth and Differentiation
  - Intracellular Accumulations
  - Pathologic Calcification
  - Cellular Aging
- Chapter 3: Inflammation and Repair
  - Overview of Inflammation: Definitions and General Features
  - Acute Inflammation
  - Chronic Inflammation
  - Systemic Effects of Inflammation
  - Tissue Repair
- Chapter 4: Hemodynamic Disorders, Thromboembolic Disease, and Shock
  - Edema and Effusions
  - Hyperemia and Congestion
  - Hemostasis, Hemorrhagic Disorders, and Thrombosis
  - Embolism
  - Infarction

- Shock
  - Chapter 5: Genetic Disorders
  - Genes and Human Diseases
  - Mendelian Disorders
  - Complex Multigenic Disorders
  - Chromosomal Disorders
  - Single-Gene Disorders With Nonclassic Inheritance
  - Molecular Genetic Diagnosis
  - Acknowledgment
  - Chapter 6: Diseases of the Immune System
  - The Normal Immune Response
  - Hypersensitivity: Immunologically Mediated Tissue Injury
  - Autoimmune Diseases
  - Rejection of Tissue Transplants
  - Immunodeficiency Diseases
  - Amyloidosis
  - Chapter 7: Neoplasia
  - Nomenclature
  - Characteristics of Benign and Malignant Neoplasms
  - Epidemiology of Cancer
  - Molecular Basis of Cancer: Role of Genetic and Epigenetic Alterations
  - Carcinogenic Agents and Their Cellular Interactions
  - Clinical Aspects of Neoplasia
  - Chapter 8: Infectious Diseases
  - General Principles of Microbial Pathogenesis
  - Viral Infections
  - Bacterial Infections
  - Fungal Infections
  - Parasitic Infections
  - Sexually Transmitted Infections
  - Emerging Infectious Diseases
  - Special Techniques for Diagnosing Infectious Agents
  - Chapter 9: Environmental and Nutritional Diseases
  - Health Effects of Climate Change
  - Toxicity of Chemical and Physical Agents
  - Environmental Pollution
  - Occupational Health Risks: Industrial and Agricultural Exposures
  - Effects of Alcohol
  - Injury by Therapeutic Drugs and Drugs of Abuse
  - Injury by Physical Agents
  - Nutritional Diseases
  - Chapter 10: Diseases of Infancy and Childhood
  - Congenital Anomalies
  - Prematurity and Fetal Growth Restriction
  - Perinatal Infections
  - Fetal Hydrops
  - Inborn Errors of Metabolism and Other Genetic Disorders
  - Sudden Infant Death Syndrome
  - Tumors and Tumorlike Lesions of Infancy and Childhood
- The prior contributions of Dr. Anirban Maitra to this chapter are gratefully acknowledged.

- Chapter 11: Blood Vessels
- Vascular Structure and Function
- Vascular Anomalies
- Vascular Wall Response to Injury
- Hypertensive Vascular Disease
- Arteriosclerosis
- Atherosclerosis
- Aneurysms and Dissection
- Vasculitis
- Disorders of Blood Vessel Hyperreactivity
- Veins and Lymphatics
- Vascular Tumors
- Pathology of Vascular Intervention
- Chapter 12: The Heart
- Cardiac Structure and Specializations
- Overview of Cardiac Pathophysiology
- Heart Failure
- Cardiac Development
- Congenital Heart Disease
- Ischemic Heart Disease
- Arrhythmias
- Hypertensive Heart Disease
- Valvular Heart Disease
- Cardiomyopathies
- Pericardial Disease
- Tumors of the Heart
- Cardiac Transplantation
- Cardiac Devices
- Chapter 13: Diseases of White Blood Cells, Lymph Nodes, Spleen, and Thymus
- Normal Hematopoiesis
- Disorders of White Cells
- Spleen
- Thymus
- Chapter 14: Red Blood Cell and Bleeding Disorders
- Anemias
- Polycythemia
- Bleeding Disorders: Hemorrhagic Diatheses
- Chapter 15: The Lung
- Congenital Anomalies
- Atelectasis (Collapse)
- Pulmonary Edema
- Acute Lung Injury and Acute Respiratory Distress Syndrome (Diffuse Alveolar Damage)
- Obstructive and Restrictive Lung Diseases
- Obstructive Lung Diseases
- Chronic Diffuse Interstitial (Restrictive) Diseases
- Diseases of Vascular Origin
- Pulmonary Infections
- Lung Transplantation

- Tumors
- Pleura
- Chapter 16: Head and Neck
- Oral Cavity
- Upper Airways
- Ears
- Neck
- Salivary Glands
- Chapter 17: The Gastrointestinal Tract
- Congenital Abnormalities
- Esophagus
- Stomach
- Small Intestine and Colon
- Peritoneal Cavity
- Congenital Abnormalities
- Esophagus
- Stomach
- Small Intestine and Colon
- Peritoneal Cavity
- Chapter 18: Liver and Gallbladder
- The Liver and Bile Ducts
- Gallbladder
- Chapter 19: The Pancreas
- Congenital Anomalies
- Pancreatitis
- Nonneoplastic Cysts
- Neoplasms
- Chapter 20: The Kidney
- Clinical Manifestations of Renal Diseases
- Glomerular Diseases
- Tubular and Interstitial Diseases
- Vascular Diseases
- Congenital and Developmental Anomalies
- Cystic Diseases of the Kidney
- Urinary Tract Obstruction (Obstructive Uropathy)
- Urolithiasis (Renal Calculi, Stones)
- Neoplasms of the Kidney
- Chapter 21: The Lower Urinary Tract and Male Genital System
- The Lower Urinary Tract
- The Male Genital Tract
- Chapter 22: The Female Genital Tract
- Vulva
- Vagina
- Cervix
- Body of Uterus and Endometrium
- Ovaries
- Gestational and Placental Disorders
- Chapter 23: The Breast
- Disorders of Development
- Clinical Presentations of Breast Disease

- Inflammatory Disorders
- Benign Epithelial Lesions
- Carcinoma of the Breast
- Stromal Tumors
- Other Malignant Tumors of the Breast
- Chapter 24: The Endocrine System
- Pituitary Gland
- Thyroid Gland
- Parathyroid Glands
- The Endocrine Pancreas
- Adrenal Glands
- Multiple Endocrine Neoplasia Syndromes
- Pineal Gland
- Chapter 25: The Skin
- The Skin: More Than a Mechanical Barrier
- Disorders of Pigmentation and Melanocytes
- Benign Epithelial Tumors
- Adnexal (Appendage) Tumors
- Premalignant and Malignant Epidermal Tumors
- Tumors of the Dermis
- Tumors of Cellular Migrants to the Skin
- Disorders of Epidermal Maturation
- Acute Inflammatory Dermatoses
- Chronic Inflammatory Dermatoses
- Blistering (Bullous) Diseases
- Disorders of Epidermal Appendages
- Panniculitis
- Infection
- Chapter 26: Bones, Joints, and Soft Tissue Tumors
- Bone
- Joints
- Soft Tissue Tumors
- Chapter 27: Peripheral Nerves and Skeletal Muscles
- Diseases of Peripheral Nerves
- Diseases of the Neuromuscular Junction
- Diseases of Skeletal Muscle
- Peripheral Nerve Sheath Tumors
- Chapter 28: The Central Nervous System
- Cellular Pathology of the Central Nervous System
- Cerebral Edema, Hydrocephalus, Raised Intracranial Pressure, and Herniation
- Malformations and Developmental Disorders
- Perinatal Brain Injury
- Trauma
- Cerebrovascular Disease
- Infections
- Demyelinating Diseases
- Neurodegenerative Diseases
- Genetic Metabolic Diseases
- Toxic and Acquired Metabolic Diseases
- Tumors

- Acknowledgment
- Chapter 29: The Eye
- Orbit
- Eyelid
- Conjunctiva
- Sclera
- Cornea
- Anterior Segment
- Uvea
- Retina and Vitreous
- Optic Nerve
- The End-Stage Eye: Phthisis Bulbi
- Index.
