

TABLE OF CONTENTS – Simian Virology

Preface.

Acknowledgments.

Part I: Introduction to Primatology and Virology.

1 Classification of Nonhuman Primates.

2 Principles of Virology.

Part II: Simian Viruses and Nonhuman Primate Models of Viral Infections.

Introduction to Part II.

Section 1: RNA Viruses.

Section 1.1: Simian Retroviruses.

Introduction to Retroviruses.

3 Lentiviruses in Their Natural Hosts.

4 Lentivirus AIDS Models.

5 Origins of Epidemic Forms HIV-1 and HIV-2.

6 Betaretroviruses.

7 Gammaretroviruses.

8 Deltaretroviruses.

9 Spumaviruses.

Section 1.2: Other Simian RNA Viruses.

10 Picornaviruses.

11 Arteriviruses.

Section 2: DNA Viruses.

Section 2.1: Simian Herpesviruses.

Introduction to Herpesviruses.

12 Simplexviruses.

13 Varicelloviruses.

14 Cytomegaloviruses.

15 Lymphocryptoviruses.

16 Rhadinoviruses.

Section 2.2: Other Simian DNA Viruses.

17 Parvoviruses.

18 Polyomaviruses.

19 Papillomaviruses.

20 Hepadnaviruses.

21 Adenoviruses.

Section 3: Miscellaneous RNA and DNA Viruses.

22 Miscellaneous Viruses.

Section 4: Experimental and Natural Infection of Nonhuman Primates with Nonsimian Viruses.

23 Experimental Infection of Nonhuman Primates with Viruses of Medical Importance.

24 Natural Infection of Nonhuman Primates with Nonsimian Viruses.

Index.
