

# **TABLE OF CONTENTS**

## **1. Triage and initial assessment**

Remote triage

In-person triage

Primary assessment

Secondary assessment

## **2. Cardiovascular emergencies**

Hypovolaemic shock

Cardiopulmonary arrest

Congestive heart failure

Arrhythmias

## **3. Respiratory emergencies**

Upper airway obstruction

Allergic bronchitis/feline asthma

Pneumonia

Pleural space diseases

## **4. Haematological emergencies**

Anaemia

Coagulopathies

## **5. Gastrointestinal emergencies**

Gastric dilatation-volvulus

Acute pancreatitis

## **6. Urological emergencies**

Acute renal failure

Feline urethral obstruction

## **7. Neurological emergencies**

Seizures

Cranioencephalic trauma (CET)

## **8. Metabolic emergencies**

Addisonian crisis

Diabetic ketoacidosis

## **9. Reproductive emergencies**

Dystocia

Pyometra

## **10. Environmental emergencies**

Heat stroke

Hypothermia.
