

TABLE OF CONTENTS

1. Basic surgical techniques

Excretory urography

Preventative hemostasis

Hydrodissection

Hydrodissection enucleation

Ophthalmic surgery. Entropion

Congenital entropion(Hotz-Celsus blepharoplasty)

Case / Hotz-Celsus blepharoplasty with CO2 laser

Lumbosacral epidural anesthesia

Epidural anesthesia

Urethral catheterization

Urinary catheterization

Cystocentesis

Cystocentesis and percutaneous bladder catheterization

Percutaneous bladder catheterization

Cystocentesis and percutaneous bladder catheterization

Purse string suture of the anus

Purse string suture

Castration

Canine orchidectomy

Case / Prescrotal castration in the dog

Anal neoplasia

Perianal neoplasia

Case / Adenoma (small size)

Closed sacculotomy

Bilateral sacculotomy

Vulval and vaginal neoplasia

Case / Vaginal tumor

Vaginal neoplasia

Rectal prolapse. Colopexy

Rectal prolapse: amputation

Laparotomy

Midline laparotomy

Liver biopsy

Liver biopsy

Renal biopsy

Wedge biopsy

Kidney biopsy

Partial splenectomy

Splenectomy

Splenectomy (vessel ligations)

Splenectomy (vessel sealants)

Ovariohysterectomy

Ovariohysterectomy in the dog

Ovariohysterectomy and pyometra

Laparoscopic ovariohysterectomy

Pyometra / Cystic endometrial hyperplasia

Ovariohysterectomy and pyometra

Cystotomy

Cystotomy (bladder stones)

Bladder uroliths

Bladder stones (surgical treatment)

Case / Single urolith in a female dog

Ectopic testes

Ectopic testes (cryptorchidism/monorchidism)

Case / Abdominal monorchid

Nephrectomy

Nephrectomy (kidney stones)

Gastrostomy. Midline laparotomy

Foreign body (gastrotomy)

Gastric dilatation-volvulus syndrome (GDV)

Gastric dilatation volvulus syndrome

Intestinal obstruction due to a non-linear foreign body

Intestinal obstruction (enterotomy)

Enterotomy

Intestinal obstruction (enterotomy)

Enterectomy

Intestinal lesion (enterectomy)

Intestinal intussusception

Intestinal intussusception

Colectomy

Megacolon (colectomy)

Thoracocentesis

Thoracic puncture

Thoracotomy

Intercostal thoracotomy

Peritoneal-pericardial diaphragmatic hernia

Diaphragmatic hernia

2. Advanced surgical techniques

Ear surgery: ablation of the external ear canal

Ablation of the external auditory canal

Case / Ablation of the external ear canal

Brachycephalic syndrome

Brachycephalic syndrome

Tracheal collapse

Tracheal collapse. Extraluminal cervical tracheoplasty

Extraluminal tracheoplasty

Tracheal collapse. Intraluminal tracheoplasty

Intraluminal tracheoplasty

Urethral stenoses

Case / Scrotal urethrostomy

Scrotal urethrostomy

Prolapse of the urethral mucosa

Urethral prolapse

Thoracoscopy

Exploratory laparoscopy and laparoscopic surgery

Laparoscopic surgery

Portosystemic shunt

Case 1 / Extrahepatic shunt.

Cellophane tape banding (right-sided approach)

Portosystemic shunt: occlusion with a cellophane strip

Case 2 / Extrahepatic shunt.

Ameroid constrictor (left-sided approach)

Portosystemic shunt: placement of an ameroid ring

Hepatic surgery: hepatic lobectomy

Case / Hepatic lobectomy

Hepatic lobectomy

Intramural ureteral ectopy. Ureterocystostomy

Ureterocystostomy

Case / Intramural ectopic ureter

Extramural ectopic ureter.

Neo-ureterocystostomy

Neo-ureterocystostomy

Case / Extramural ectopic ureter

Esophageal hiatal hernia

Hiatal hernia

Megaesophagus

Idiopathic megaesophagus (esophagus-diaphragmatic cardioplasty)

Case / Megaesophagus

Adrenal gland surgery. Adrenalectomy

Meticulous adrenalectomy

Case / Adrenalectomy

Pheochromocytoma

Pheochromocytoma

Cardiac tamponade. Pericardiectomy

Pericardiectomy

Patent ductus arteriosus (PDA)

PDA. Conventional surgical treatment

Patent ductus arteriosus

Perineal hernia

Case 1 / Simple herniorraphy

Simple herniorraphy

Case 2 / Mesh implant

Mesh implant

Case 3 / Deferensopexy

Deferensopexy

Perianal fistulas

Case / Radical surgical resection

Perianal fistulas.
