

TABLE OF CONTENTS – The Great Eagles : Their Evolution, Ecology and Conservation

Part 1: Eagle Classification, Genetics and Ecology

1. Systematic List of the "True Eagles" (Subfamily *Aquilinae*; Genus *Aquila*)
2. Systematic List of the "Booted Eagles" (Subfamily *Aquilinae*; Genera *Hieraetus*, *Spizaetus*, *Nisaetus*, *Lophaetus*, *Clanga*, *Ictinaetus*, *Stephanoetus*, *Polemaetus* and *Lophotriorchis*)
3. Systematic List of the Serpent Eagles *Circaetinae*: Genera *Circaetus*, *Eutriorchis*, *Pithecophaga*, *Spilornis*, *Terathopius*
4. Systematic List of the Sea Eagles Subfamily *Haliaeetinae*; Genus *Haliaeetus*
5. Systematic List of the Harpy Eagles Subfamily *Harpiinae*; Genera *Harpia*, *Morphnus*, *Harpyopsis*, and *Buteogallus* (formerly *Harpyhaliaetus*)

Part 2: Eagles and Their Ecological Relations

6. Eagles and Their Competitors
7. Climate, Relief, Landcover and Eagles

Part 3: Eagles and Conservation Issues

8. Eagles and Cultural Landscapes
9. Eagles and Environmental Chemistry
10. Eagle Ecology and Geomatics-Based Research
11. Eagles as Individuals and Free Spatial Agents
12. Eagles in Social History and Conservation.
