

# • TABLE OF CONTENTS

## **Chapter 1 The Preanesthetic Period**

General Considerations  
Physical Status  
Classification of Risk Status  
Patient Evaluation  
Risk Assessment of the Injured Patient  
Hospitalization  
Pain Management: It starts before anesthesia!  
Preanesthetic Medication  
Tranquilizers  
Alpha2 Adrenergic Receptor Agonists  
Receptor Antagonists  
Neuroleptanalgesia and Neuroleptanesthesia  
Pentobarbital as Premedication  
Nonsteroidal Anti-inflammatory Drugs  
Pain Management from a Surgeon's Perspective

## **Chapter 2 The Induction Period**

Equipment  
Placement Technique  
Methods of Induction  
Laryngoscopy and Endotracheal Intubation

## **Chapter 3 The Anesthetic Period**

Anesthetic Machines  
Breathing Systems  
Systems  
Assessment of Anesthetic Systems  
Protocol for Machine Check Pre-Anesthesia  
Cleaning and Maintenance  
Flow Rates for Circle Anesthetic Systems  
Scavenging Systems for Waste Anesthetic Gases  
Occupational Exposure to Waste Anesthetic Gases  
Hazards of Anesthetic Machines  
General Principles of Inhalation Anesthesia  
Minimum Alveolar Concentration (MAC)  
Metabolism of Inhalation Anesthetics  
Characteristics of Inhalation Anesthetics  
Mechanical Ventilators for Small Animal Patients  
Agents  
Reactivity, Stability and Flammability

## **Chapter 4 The Anesthetic Period: Maintenance**

The Anesthetic Record  
Procedures Following Induction and Intubation  
Perioperative Monitoring of the Anesthetized Patient  
Fluid Therapy

Blood Gases and Acid-Base Relationships

## **Chapter 5 The Anesthetic Period: Predictable Problems**

Standard Surgical Anesthetic Procedures

Shock Patient and High Risk Anesthesia

Balanced Anesthesia

Muscle Relaxation

Modifications for Breeds

Modifications for Specific Procedures

Modifications for Specific Conditions

## **Chapter 6 The Anesthetic Period: Other Small Animals Birds**

Guinea Pig, Hamster, Rat, Mouse, Gerbi

Rabbits

Non-Domestic Carnivores

Anesthesia of Freshwater and Saltwater Fishes

Anesthesia and Analgesia of Reptiles

## **Chapter 7 The “Nobody Wins” Period: Cardiac Arrest and Resuscitation**

Cardiac Emergency

Recognition

Resuscitation

Crash Cart or Box

Assessment

## **Chapter 8 The Recovery Period**

Pain Management

Anesthesia Recovery

Recovery Procedures

Complications

Summary

Index.
