

Table of contents

Dedication and Foreword v

Preface vi

Contributors List vii

Section 1: General Topics

1 Introduction: Use, Definitions, History, Concepts, Classification, and Considerations for Anesthesia and Analgesia 3

William J. Tranquilli and Kurt A. Grimm

2 Anesthetic Risk and Informed Consent 11

Dave C. Brodbelt, Derek Flaherty and Glenn R. Pettifer

3 Anesthesia Equipment 23

Craig A. Mosley

4 Monitoring Anesthetized Patients 86

Steve C. Haskins

5 Anesthetic Emergencies and Resuscitation 114

Deborah V. Wilson and Andre C. Shih

6 Euthanasia and Humane Killing 130

Robert E. Meyer

Section 2: Pharmacology

7 General Pharmacology of Anesthetic and Analgesic Drugs 147

Ted Whittem, Thierry Beths and Sebastien H. Bauquier

8 Anticholinergics 178

Phillip Lerche

9 Adrenergic Agents 183

Joanna C. Murrell

10 Sedatives and Tranquilizers 196

David C. Rankin

11 Opioids 207

Butch KuKanich and Ashley J. Wiese

12 Non-Steroidal Anti-Inflammatory Drugs 227

Mark G. Papich and Kristin Messenger

13 Anesthetic and Analgesic Adjunctive Drugs 244

Daniel S. J. Pang

14 Muscle Relaxants and Neuromuscular Blockade 260

Robert D. Keegan

15 Injectable Anesthetics 277

Stephanie H. Berry

16 Inhalation Anesthetics 297

Eugene P. Steffey, Khursheed R. Mama and Robert J. Brosnan

17 Local Anesthetics 332

Eva Rioja Garcia

Section 3: Body Fluids and Thermoregulation

18 Acid–Base Physiology 357

William W. Muir

19 Perioperative Thermoregulation and Heat Balance 372

Kurt A. Grimm

20 Treatment of Coagulation and Platelet Disorders 380

Benjamin M. Brainard

21 Clinical Pharmacology and Administration of Fluid, Electrolyte, and Blood Component Solutions 386

Amandeep S. Chohan and Elizabeth B. Davidow

Section 4: Cardiovascular System

22 Cardiovascular Physiology 417

William W. Muir

23 Cardiac Output Measurement 473

Alessio Vigani

24 Anesthesia for Cardiopulmonary Bypass 483

Khursheed R. Mama

25 Cardiac Pacemakers and Anesthesia 490

Barret J. Bulmer

26 Pathophysiology and Anesthetic Management of Patients with Cardiovascular Disease 496

Sandra Z. Perkowski and Mark A. Oyama

Section 5: Respiratory System

27 Physiology, Pathophysiology, and Anesthetic Management of Patients with Respiratory Disease 513

Wayne N. McDonell and Carolyn L. Kerr

Section 6: Nervous System

28 Physiology, Pathophysiology, and Anesthetic Management of Patients with Neurologic Disease 559

Klaus A. Otto

29 Nociception and Pain 584

Carolyn M. McKune, Joanna C. Murrell, Andrea M. Nolan, Kate L. White and Bonnie D. Wright

Section 7: Hepatic System

30 Physiology, Pathophysiology, and Anesthetic Management of Patients with Hepatic Disease 627

Fernando Garcia-Pereira

Section 8: Gastrointestinal and Endocrine Systems

31 Physiology, Pathophysiology, and Anesthetic Management of Patients with Gastrointestinal and Endocrine Disease 641

Jennifer G. Adams, Juliana Peboni Figueiredo and Thomas K. Graves

Section 9: Urogenital System

32 Physiology, Pathophysiology, and Anesthetic Management of Patients with Renal Disease 681

Stuart C. Clark-Price and Gregory F. Grauer

33 Anesthetic Considerations for Renal Replacement Therapy 698

Rebecca A. Johnson

34 Anesthetic Considerations During Pregnancy and for the Newborn 708

Marc R. Raffe

Section 10: Comparative Anesthesia and Analgesia

35 Comparative Anesthesia and Analgesia of Dogs and Cats 723

Peter J. Pascoe and Bruno H. Pypendop

36 Anesthesia and Pain Management of Shelter Populations 731

Andrea L. Looney

37 Comparative Anesthesia and Analgesia of Equine Patients 739

Lori A. Bidwell

38 Comparative Anesthesia and Analgesia of Ruminants and Swine 743
HuiChu Lin

39 Comparative Anesthesia and Analgesia of Laboratory Animals 754
Paul A. Flecknell and Aurelie A. Thomas

40 Comparative Anesthesia and Analgesia of Zoo Animals and Wildlife 764
Nigel Anthony Caulkett and Jon M. Arnemo

41 Comparative Anesthesia and Analgesia of Aquatic Mammals 777
David B. Brunson

42 Comparative Anesthesia and Analgesia of Reptiles, Amphibians, and Fishes 784
Cornelia I. Mosley and Craig A. Mosley

43 Comparative Anesthesia and Analgesia of Birds 800
John W. Ludders

Section 11: Anesthesia and Analgesia for Domestic Species

44 Dogs and Cats 819
Richard M. Bednarski

45 Canine and Feline Local Anesthetic and Analgesic Techniques 827
Luis Campoy, Matt Read and Santiago Peralta

46 Horses 857
Regula Bettschart-Wolfensberger

47 Horses with Colic 867
Cynthia M. Trim and Molly K. Shepard

48 Equine Local Anesthetic and Analgesic Techniques 886
Rachael E. Carpenter and Christopher R. Byron

49 Ruminants 912
Thomas W. Riebold

50 Swine 928
Lais M. Malavasi

51 Ruminant and Swine Local Anesthetic and Analgesic Techniques 941
Alexander Valverde and Melissa Sinclair

Section 12: Anesthesia and Analgesia for Selected Patients or Procedures

52 Ophthalmic Patients 963
Marjorie E. Gross and Luisito S. Pablo

53 Neonatal and Pediatric Patients 983

Tamara L. Grubb, Tania E. Perez Jimenez and Glenn R. Pettifer

54 Senior and Geriatric Patients 988

Tamara L. Grubb Tania E. Perez Jimenez and Glenn R. Pettifer

55 Cancer Patients 993

Timothy M. Fan

56 Orthopedic Patients 1004

Steven C. Budsberg

57 Patient and Anesthetist Safety Considerations for Laser and Radiographic Procedures and
Magnetic Resonance Imaging 1015

Julie A. Smith

Index 1027
