

• **TABLE OF CONTENTS**

- Cover image
- Title page
- Table of Contents
- Copyright
- Preface
- Preface to the First Edition
- Acknowledgements
- Dedication
- Basic Pathological Processes

- **1. Introduction to pathology**
- Overview of the practice of pathology
- Basic histology techniques
- Cytopathology
- Introduction to immunohistochemistry
- Immunohistochemical interpretation
- Electron microscopy
- Molecular techniques
- Next-generation sequencing
- Digital pathology and image analysis
- Personalised medicine
- Questions
- Answers

- **2. Cellular responses to injury**
- Introduction
- Questions
- Answers

- **3. Acute inflammation, healing and repair**
- Introduction
- Morphological patterns of acute inflammation
- Clinical features and nomenclature of acute inflammatory processes
- Outcomes of acute inflammation
- Questions
- Answers

- **4. Chronic inflammation**
- Introduction
- Non-specific chronic inflammation
- Specific (primary) chronic inflammation
- Granulomatous inflammation
- Questions
- Answers

- **5. Infections of histological importance**
- Introduction
- Bacterial infections

- Mycobacterial infections
- Spirochaete infections
- Viral infections
- Fungal infections
- Protozoa and helminths
- Questions
- Answers

- **6. Disorders of growth**
- Introduction
- Questions
- Answers

- **7. Dysplasia and neoplasia**
- Cellular atypia and dysplasia
- Neoplasia
- Carcinoma in situ
- General characteristics of neoplasms
- Histological assessment of neoplasms
- Tumour nomenclature and classification
- Tumours of epithelial origin
- Tumours of connective tissue origin
- Nomenclature of other tumours
- Modes of spread of malignant neoplasms
- Staging of malignant tumours

- **8. Atherosclerosis**
- Consequences of atheroma
- Questions
- Answers

- **9. Thrombosis and embolism**
- Thrombosis
- Fate of vascular thrombi
- Questions
- Answers

- **10. Infarction**
- Introduction
- Types of infarction
- Macroscopic appearance of infarcts
- Ischaemic heart disease
- Basic Systems Pathology

- **11. Cardiovascular system**
- Diseases of the arterial system
- Aneurysms
- Inflammation of vessels (vasculitis)
- Malformations and tumours of blood vessels
- Diseases of the heart

- Rheumatic fever
- Valvulitis (endocarditis of valves)
- Primary tumours of the heart
- Questions
- Answers

- **12. Respiratory System**
- Diseases of the nose and pharynx
- Inflammatory diseases of the airways and lungs
- Questions
- Answers

- **13. Gastrointestinal system**
- Introduction
- Diseases of the oral tissues and salivary glands
- Oesophageal diseases
- Diseases of the stomach
- Diseases of the small intestine and appendix
- Diseases of the large intestine

- **14. Liver and pancreaticobiliary system**
- Disorders of the liver
- Acute inflammation of the liver
- Chronic hepatitis
- Disorders of the biliary system
- Disorders of the pancreas
- Pancreatic cancer
- Cystic lesions of the pancreas

- **15. Urinary system**
- Introduction
- The kidney
- Diseases of the glomerulus
- Glomerulonephritis
- Disorders of the renal tubules and interstitium
- Vascular disorders
- Tumours of the kidney
- Diseases of the lower urinary tract

- **16. Lymphoid and haematopoietic systems**
- Functions of the lymphoreticular system
- Reactive disorders of lymph nodes
- Malignant disorders of the lymphoid system
- Lymphoma classification
- B cell non-Hodgkin lymphoma
- T-cell non-Hodgkin lymphoma
- Hodgkin lymphoma
- Bone marrow disease
- Leukaemias
- Myeloproliferative neoplasms and myelodysplastic syndromes

- Chapter review.
- Questions
- Answers

- **17. Female reproductive system**
- Introduction
- Disorders of the vulva and vagina
- Diseases of the uterine cervix
- Disorders of the uterus
- Placental disorders
- Diseases of the fallopian tubes
- Disorders of the ovary
- Questions
- Answers

- **18. Breast**
- Introduction
- Inflammatory disorders of the breast
- Non-neoplastic breast disease
- Neoplasms of the breast
- Questions
- Answers

- **19. Male reproductive system**
- Introduction
- Disorders of the testis and epididymis
- Testicular tumours
- Disorders of the prostate
- Disorders of the penis
- Questions
- Answers

- **20. Endocrine system**
- Pituitary gland disorders
- Disorders of the thyroid gland
- Disorders of the parathyroid glands
- Disorders of the adrenal glands
- Questions
- Answers

- **21. Skin**
- Introduction
- Inflammatory disorders
- Neoplastic disorders
- Epithelial neoplasms
- Melanocytic lesions
- Benign melanocytic naevi
- Malignant melanocytic lesions (malignant melanoma)
- Cysts and other skin lesions

- **22. Bone and soft tissues**
- Bone
- Bone fracture
- Bone infection
- Metabolic bone disease
- Bone tumours
- Reactive processes and tumour-like lesions
- Benign tumours
- Malignant tumours
- Questions
- Answers

- **23. Nervous system**
- Introduction
- Response of CNS tissues to injury
- Vascular disorders of the CNS
- Degenerative diseases of the CNS
- Infections of the CNS
- Primary demyelinating diseases
- Tumours of the CNS
- Disorders of peripheral nerves
- Disorders of skeletal muscle
- Questions
- Answers

- **Appendix 1 – Notes on commonly used staining methods**

- **Appendix 2 – Glossary of pathological terms**

- **Appendix 3 – Bonus E-Book Images**

- **Index.**
