

# TABLE OF CONTENTS

## Zoo Animal Learning and Training

Notes on Contributors

Foreword

Preface

Acknowledgements

### Part A Demystifying Zoo Animal Training 1

1 Learning Theory 3

*Nicole R. Dorey*

2 The Cognitive Abilities of Wild Animals 15

*Lindsay R. Mehrkam*

3 The Ultimate Benefits of Learning 35

*Kathy Baker and Vicky A. Melfi*

4 Choosing the Right Method: Reinforcement vs Punishment 53

*Ken Ramirez*

#### Modality Boxes

Consideration of what modalities animals use to communicate with one another; as training programmes are based on good communication between the zoo professional and animal they are working with.

Box A1 Animal Vision 69

*Andrew Smith*

Box A2 Do You Hear What I Hear? Hearing and Sound in Animals 73

*Erik Miller-Klein*

Box A3 Making Sense of Scents: Olfactory Perception in Animals 77

*Neil Jordan*

### Part B Types of Learning That Can Be Achieved in a Zoo Environment 81

5 What is There to Learn in a Zoo Setting? 83

*Fay Clark*

6 Environmental Enrichment: The Creation of Opportunities for Informal Learning 101  
*Robert John Young, Cristiano Schetini de Azevedo, and Cynthia Fernandes Cipreste*

7 The Art of 'Active' Training 119  
*Steve Martin*

8 Integrating Training into Animal Husbandry 143  
*Marty Sevenich-MacPhee*

9 Us and Them: Human–Animal Interactions as Learning Events 167  
*Geoff Hosey and Vicky A. Melfi*

### **Taxa Specific Boxes**

Consideration of species specific differences in cognitive ability are explored in academic boxes and the considerations necessary to practically implement training with different species are explored in professional boxes below.

Box B1 Elephant Training in Zoos 183  
*Greg A. Vicino*

Box B2 Human–Elephant Interactions in Semi-captive Asian Elephants of Myanmar 187  
*Khyne U. Mar*

Box B3 Elephant Cognition: An Overview 191  
*Sarah L. Jacobson and Joshua M. Plotnik*

Box B4 Marine Mammal Training 197  
*Sabrina Brando*

Box B5 Cognitive Abilities of Marine Mammals 203  
*Gordon B. Bauer*

Box B6 The Application of Positive Reinforcement Training to Enhance Welfare of Primates in Zoological Collections 211  
*Jim Mackie*

Box B7 Species-specific Considerations: Primate Learning 217  
*Betsy Herrelko*

Box B8 Training Reptiles in Zoos: A Professional Perspective 221  
*Richard Gibson*

Box B9 The Learning Repertoire of Reptiles 227  
*Gordon M. Burghardt*

Box B10 Training Birds from a Zoo Professional's Perspective 231  
*Heidi Hellmuth*

Box B11 Learning and Cognition in Birds 235  
*Jackie Chappell*

Box B12 Species-specific Considerations when Planning and Implementing Training with Aquatics 239  
*Heather Williams*

Box B13 The Cognitive Abilities of Fish 243  
*Culum Brown*

### **Part C More Than A to B: How Zoo Animal Training Programmes Can Impact Zoo Operations and Mission 247**

10 Making Training Educational for Zoo Visitors 249  
*Katherine Whitehouse-Tedd, Sarah Spooner, and Gerard Whitehouse-Tedd*

11 Welfare Implications of Zoo Animal Training 271  
*Vicky A. Melfi and Samantha J. Ward*

12 Training Animals in Captivity or the Wild, so They Can Return to the Wild 289  
*Jonathan Webb*

13 Last but in Fact Most Importantly ... Health and Safety 309  
*Tim Sullivan*

#### **Bigger Training Consideration Boxes**

For some of the topics we felt it might be helpful to provide a box outside to the general text to consider some bigger concepts in animal training. These include 'training multiple animals' by Kirstin Anderson-Hansen and a concluding positive note on including training within zoo animal management programmes by Gary Priest.

Box C1 Training Animals in a Group Setting 327  
*Kirstin Anderson-Hansen*

Box C2 This Generation's Challenge 333  
*Gary Priest*

Glossary 335

Index 339.
