<i>List of Contributors</i> .....	xix
<i>List of Abbreviations</i> .....	xxxv
<i>Preface</i> .....	xxxix

## 1: Epidemiology and Surveillance

<b>Chapter 1 Identifying an Outbreak of a Novel Swine Disease using Test Requests for Porcine Reproductive and Respiratory Syndrome as a Syndromic Surveillance Tool.....</b>	<b>3</b>
Abstract .....	4
Background .....	5
Methods .....	6
Results .....	9
Discussion .....	17
Conclusions.....	20
Acknowledgements .....	20
References .....	21
<b>Chapter 2 Syndromic Surveillance Using Veterinary Laboratory Data: Algorithm Combination and Customization of Alerts.....</b>	<b>25</b>
Abstract .....	26
Introduction.....	26
Methods .....	28
Results .....	34
Discussion .....	40
Author Contributions .....	45
References .....	46

<b>Chapter 3</b>	<b>A Focused Ethnographic Study of Alberta Cattle Veterinarians' Decision Making about Diagnostic Laboratory Submissions and Perceptions of Surveillance Programs .....</b>	<b>49</b>
	Abstract .....	50
	Introduction.....	50
	Methods .....	53
	Results .....	56
	Discussion .....	70
	Acknowledgments .....	80
	Author Contributions .....	80
	References .....	81
<b>Chapter 4</b>	<b>Exploratory Analysis of Methods for Automated Classification of Laboratory Test Orders into Syndromic Groups in Veterinary Medicine .....</b>	<b>85</b>
	Abstract .....	86
	Introduction.....	87
	Methods .....	89
	Results .....	94
	Discussion .....	98
	Acknowledgments .....	102
	Author Contributions .....	102
	References .....	103
	<b>2: Serology</b>	
<b>Chapter 5</b>	<b>Getting More Out of Less – A Quantitative Serological Screening Tool for Simultaneous Detection of Multiple Influenza A Hemagglutinin-Types in Chickens .....</b>	<b>109</b>
	Abstract .....	110
	Introduction.....	110
	Materials and Methods .....	112
	Results .....	116
	Discussion .....	121
	Acknowledgments .....	125
	Author Contributions .....	125
	References .....	126

<b>Chapter 6</b>	<b>Serological Diagnostic Potential of Recombinant Outer Membrane Proteins (rOMPs) from <i>Brucella Melitensis</i> in Mouse Model using Indirect Enzyme-linked Immunosorbent Assay .....</b>	<b>131</b>
Abstract .....	132	
Background .....	133	
Results .....	134	
Discussion .....	141	
Conclusions.....	143	
Methods .....	143	
Acknowledgements .....	148	
References .....	149	

### 3: Immunoassays

<b>Chapter 7</b>	<b>Comparison of a Flow Assay for Brucellosis Antibodies with the Reference CELISA Test in West African <i>Bos indicus</i>.....</b>	<b>155</b>
Introduction.....	156	
Methods .....	158	
Celisa .....	158	
Results .....	162	
Discussion .....	166	
Acknowledgments .....	169	
Author Contributions .....	169	
References .....	170	

### 4: Tissue Culture

<b>Chapter 8</b>	<b>Proof of Concept of Faecal Egg Nematode Counting as a Practical Means of Veterinary Engagement with Planned Livestock Health Management in a Lower Income Country .....</b>	<b>177</b>
Abstract .....	178	
Background .....	179	
Methods .....	182	
Results .....	185	
Discussion .....	191	
Conclusions.....	194	
Acknowledgments .....	195	
References .....	196	

<b>Chapter 9</b>	<b>Diagnosis of Bacterial Urinary Tract Infection: Utility of Urine Myeloperoxidase Concentration to Predict Urine Culture Results in Dogs.....</b>	<b>201</b>
	Introduction.....	201
	Materials and Methods .....	203
	Results.....	205
	Discussion.....	208
	Conclusion .....	210
	Acknowledgments .....	211
	References.....	212
 <b>5: Diagnostic using PCR and Sequencing Techniques</b>		
<b>Chapter 10</b>	<b>Transcriptomic Markers Meet the Real World: Finding Diagnostic Signatures of Corticosteroid Treatment in Commercial Beef Samples.....</b>	<b>217</b>
	Abstract .....	217
	Background .....	218
	Results.....	220
	Discussion.....	232
	Conclusions.....	234
	Methods .....	234
	Acknowledgements .....	240
	References.....	242
<b>Chapter 11</b>	<b>A Molecular Diagnostic Tool to Replace Larval Culture in Conventional Faecal Egg Count Reduction Testing in Sheep .....</b>	<b>249</b>
	Abstract .....	249
	Introduction.....	250
	Materials and Methods .....	252
	Results.....	255
	Discussion.....	260
	Acknowledgments .....	263
	Author Contributions .....	263
	References.....	264

<b>Chapter 12</b>	<b>BeeDoctor, a Versatile MLPA-Based Diagnostic Tool for Screening Bee Viruses .....</b>	<b>267</b>
	Abstract .....	267
	Introduction .....	268
	Materials and Methods .....	271
	Results and Discussion .....	274
	Acknowledgments .....	281
	Author Contributions .....	281
	References .....	282
 <b>6: Diagnosis by Imaging</b>		
<b>Chapter 13</b>	<b>Confocal Laser Scanning Microscopy, a New <i>in Vivo</i> Diagnostic Tool for Schistosomiasis .....</b>	<b>289</b>
	Abstract .....	289
	Introduction .....	290
	Materials and Methods .....	291
	Results .....	292
	Discussion .....	293
	Author Contributions .....	294
	References .....	295
<b>Chapter 14</b>	<b>Rhinoceros Feet Step Out of a Rule-of-Thumb: A Wildlife Imaging Pioneering Approach of Synchronized Computed Tomography-Digital Radiography .....</b>	<b>297</b>
	Abstract .....	298
	Introduction .....	299
	Materials and Methods .....	300
	Results .....	306
	Discussion .....	316
	Conclusions .....	319
	Acknowledgments .....	320
	Author Contributions .....	320
	References .....	321

<b>Chapter 15</b>	<b>International Veterinary Epilepsy Task Force Consensus Reports on Epilepsy Definition, Classification and Terminology, Affected Dog Breeds, Diagnosis, Treatment, Outcome Measures of Therapeutic Trials, Neuroimaging and Neuropathology in Companion Animals .....</b>	<b>327</b>
	References .....	331
 <b>7: Mass Spectrometry</b>		
<b>Chapter 16</b>	<b>Quantitative and Selective Analysis of Feline Growth Related Proteins Using Parallel Reaction Monitoring High Resolution Mass Spectrometry.....</b>	<b>335</b>
	Abstract .....	336
	Introduction.....	336
	Materials and Methods .....	338
	Results .....	344
	Discussion .....	348
	Acknowledgments .....	350
	Author Contributions .....	350
	References .....	351
<b>Chapter 17</b>	<b>MALDI-TOF Mass Spectrometry as a Diagnostic Tool in Human and Veterinary Helminthology: A Systematic Review.....</b>	<b>357</b>
	Abstract .....	358
	Background .....	359
	Methods .....	361
	Results .....	362
	Discussion .....	365
	Conclusions.....	370
	References .....	371
<b>Chapter 18</b>	<b>Peptide Barcodes in Dogs affected by Mitral Valve Disease with and without Pulmonary Hypertension using MALDI-TOF MS and LC-MS/MS .....</b>	<b>389</b>
	Abstract .....	390
	Introduction.....	390
	Materials and Methods .....	392
	Results .....	397
	Discussion .....	401

Conclusion .....	406
Acknowledgments .....	406
References .....	407

## 8: Specific Instruments for Veterinary Diagnosis

<b>Chapter 19 Diagnostic Accuracy of a Short-duration 3 Tesla Magnetic Resonance Protocol for Diagnosing Stifle Joint Lesions in Dogs with Non-traumatic Cranial Cruciate Ligament Rupture.....</b>	<b>417</b>
Abstract .....	418
Background .....	418
Methods .....	420
Results .....	424
Discussion .....	428
Conclusions.....	431
Acknowledgements .....	432
References .....	433

<b>Chapter 20 Evaluation of a New Portable 1-lead Digital Cardiac Monitor (eKuore) compared with Standard Base-apex Electrocardiography in Healthy Horses.....</b>	<b>437</b>
Abstract .....	437
Introduction.....	438
Materials And Methods.....	439
Results .....	443
Discussion .....	446
References .....	448

## 9: Machine Learning and AI

<b>Chapter 21 Validation of Computerized Diagnostic Information in a Clinical Database from a National Equine Clinic Network.....</b>	<b>453</b>
Abstract .....	454
Background .....	455
Methods .....	456
Results .....	463
Discussion .....	468
Conclusion .....	473

Authors' Contributions.....	474
Acknowledgements .....	474
References .....	475
<b>Chapter 22 Proof of Concept of a Workflow Methodology for the Creation of basic Canine head Anatomy Veterinary Education Tool Using Augmented Reality .....</b>	<b>479</b>
Abstract .....	480
Introduction.....	480
Materials.....	482
Methods .....	483
Results .....	489
Discussion .....	492
Limitations.....	493
Future Work.....	494
Conclusion .....	495
References .....	496
 <b>10: Other Methods of Diagnosis</b>	
<b>Chapter 23 Novel Physico-chemical Diagnostic Tools for High Throughput Identification of Bovine Mastitis Associated Gram-Positive, Catalase-negative Cocci.....</b>	<b>503</b>
Abstract .....	504
Background .....	505
Methods .....	506
Results .....	513
Discussion .....	520
Conclusions.....	523
Authors' Contributions.....	523
Acknowledgements .....	523
References .....	524
<b>Chapter 24 The Usefulness of Uterine Lavage and Acute Phase Protein Levels as a Diagnostic Tool for Subclinical Endometritis in Icelandic Mares.....</b>	<b>529</b>
Abstract .....	530
Background .....	531
Methods .....	533

Results .....	537
Discussion .....	542
Conclusions.....	546
Abbreviations .....	546
Authors' Contributions.....	547
Acknowledgements .....	547
Ethical Approval .....	547
References .....	548
<b>Chapter 25 Diagnostic Tools of Caprine and ovine Anaplasmosis: A Direct Comparative Study .....</b>	<b>553</b>
Abstract .....	554
Background .....	554
Methods .....	556
Results .....	558
Discussion .....	564
Conclusions.....	566
Abbreviations .....	566
Acknowledgements .....	567
Availability of Data and Materials.....	567
Authors' Contributions.....	567
Ethics Approval and Consent to Participate .....	567
References .....	568
<b>Index .....</b>	<b>573</b>
