

TABLE OF CONTENTS

Equine Respiratory Medicine and Surgery

1. BASIC SCIENCES

Anatomy
Airway physiology
Pulmonary circulation
Gas exchange
Airway defenses
Immunology / Inflammation
Pulmonary pharmacology and Therapeutics Overview

2. EXAMINATION TECHNIQUES

History & Clinical Examination Techniques
Endoscopy URT & LRT (BMG)
Sample Collection Including Tracheal, BALF, Pleural Aspirates
Cytology & Bacteriology of Samples
Thoracic Ultrasonography
Radiography URT & LRT
Pulmonary Scintigraphy
Blood Gas Analysis
Pulmonary Function Testing
Pleuroscopy & Lung Biopsy
Post Mortem Examination

3. INFECTIOUS DISEASES

Viruses
Bacteria
Mycoplasmas
Fungi
Lungworm / Parascaris

4. INFLAMMATORY / IMMUNE MEDIATED DISEASES COPD, SPAOPD

IAD

Pulmonary Neoplasia

Miscellaneous (Inhaled Foreign Bodies, Pulmonary Oedema, Alveolitis and Interstitial Pneumonia, Granulomas, Fibrosis, Smoke Inhalation, Aspiration Pneumonia, Drowning, Silicosis, Eosinophilic Pneumonia)

5. FOAL RESPIRATORY DISEASES

Examination techniques which differ from adults

Neonatal Respiratory Distress Syndrome

Bacterial incl R.equi, Pneumocystis

Viral

Meconium Aspiration

Idiopathic tachypnoea

Interstitial Pneumonias

Persistent Pulmonary Hypertension

Intensive management of the foal's respiratory system

6. EIPH

EIPH

7. DISORDERS OF CHEST WALL, PLEURA, DIAPHRAGM & MEDIASTINUM

Pleuropneumonia

Other Pleural Effusions

Thoracic Wall Injuries & Pneumothorax

Diaphragmatic Hernia

Mediastinal Abscess / Neoplasia

Synchronous Diaphragmatic Flutter

8. DISEASES OF THE EQUINE UPPER AIRWAYS

9. DIAGNOSTIC TECHNIQUES FOR URT DISEASE

Radiology

Sinoscopy

CT

Scintigraphy

Treadmill evolution

10. DISORDERS OF THE NOSTRILS

Atheromas (Epidermal Inclusion Cyst)
Alar Fold Stenosis
Nasal Paralysis
Nostril Wounds

11. DISORDERS OF THE NASAL PASSAGES

Wry Nose
Nasal Septum Abnormalities
Vasomotor, allergic rhinitis, Rhinitis sicca
Alar fold collapse
Nasal Mycoses (Aspergillus Phycomycosis, Rhinosporidiosis etc)
Nasal Tumours

12. DISORDERS OF THE SINUSES

Sinoscopy
Primary Empyema
Dental Sinusitis
Sinus Cysts
Neoplasms
Mycotic infections
Sinus trauma
Sinus neoplasia

13. DISORDERS OF THE ETHMOTURBINATES

Progressive Ethmoidal Hematoma

14. DISORDERS OF THE GUTTURAL POUCH

Anatomy
Tympany
Guttural Pouch Empyema
Guttural Pouch Mycosis
Guttural pouch Tumors (inc melanomas)
Surgical Approaches
Hyovertebrotomy
Viborg's Approach
Whitehouse Approach
Modified Whitehouse Approach

15. DISORDERS OF THE NASOPHARYNX

Pharyngeal Lymphoid Hyperplasia or PLH
Pharyngeal Cysts
Nasopharyngeal Scarring
Pharyngeal Paralysis
Pharyngeal Neoplasia

16. DISORDERS OF THE SOFT PALATE

Cleft Palate
Dorsal Displacement of the Soft Palate (DDSP)

17. DISORDERS OF THE LARYNX

Epiglottic Fold (AEF) Entrapment
Cricopharyngeal laryngeal dysplasia / Rostral Displacement of the Palatopharyngeal Arch (PPA)
Laryngeal Hemiplegia
Neuromuscular pedicle grafting
Arytenoid Chondropathy
Miscellaneous disorders of the larynx webbing, injury, neoplasia

18. URT LASER SURGERY

19. DISORDERS OF THE TRACHEA

20. CRICOTRACHEAL MEMBRANE EVERSION

21. TEMPORARY TRACHEOSTOMY

22. PERMANENT TRACHEOSTOMY

23. TRACHEAL COLLAPSE
