Preface	<i>xxi</i>
Acknowledgments	<i>xxxiii</i>
Introduction	<i>xxxv</i>
Book Structure	<i>xli</i>
About the Companion Website	<i>lxi</i>
1 Acupuncture	<i>1</i>
Introduction	<i>1</i>
The What	<i>1</i>
Word Origin	<i>1</i>
Definition	<i>1</i>
Human History	<i>1</i>
Veterinary History	<i>3</i>
Terminology	<i>3</i>
Acupuncture and TCVM	<i>5</i>
Yin–Yang Theory	<i>5</i>
Five Element Theory	<i>5</i>
Zang-Fu Physiology	<i>5</i>
Meridians	<i>6</i>
Qi	<i>6</i>
Acupoints	<i>8</i>
Techniques	<i>10</i>
Acupressure	<i>10</i>
Aquapuncture	<i>10</i>
Dry Needle	<i>11</i>
Electroacupuncture	<i>11</i>
Gold Bead Implantation	<i>11</i>
Hemoacupuncture	<i>12</i>
Laser Acupuncture	<i>13</i>
Moxibustion	<i>13</i>
Pneumoacupuncture	<i>13</i>
Mechanisms of Action	<i>14</i>
Normal Skin Versus Acupoint	<i>14</i>

- Needle–Skin Interactions 14
- Mechanisms for Veterinarians 14
- Safety 20
- The Why 20
 - Applications in Human Medicine 20
 - Applications in Veterinary Medicine 20
 - Veterinary Research 20
- The How 28
 - Team Members 28
 - Return on Investment 28
 - Team Training 37
 - Promotion 40
 - Integration 40
 - Veterinarians 41
 - State Requirements and Restrictions 41
 - Return on Investment 41
 - Course Availability 41
 - Supplies and Equipment 46
 - Veterinary Organizations 46
 - Reference Books 50
 - Promotion 53
 - Integration 53
- Conclusion 53
- Acknowledgments 53
- References 53

2 Chinese Food Therapy 65

- Introduction 65
- The What 65
 - Definition 65
 - Human History 65
 - Veterinary History 66
 - Terminology 66
 - CFT and TCVM 68
 - TCVM Diagnosis 68
 - TCVM Theories and Practices 68
 - Classifications 85
 - Applying CFT 91
 - Guide Commercial Diet Selection 92
 - Supplement Commercial Diets 92
 - Recreate an Herbal Formula 92
 - Temporary Therapeutic Diet 93
 - Maintenance Diet 94
- The Why 101
 - Applications in Human Medicine 101
 - Applications in Veterinary Medicine 102
 - Veterinary Research 102

The How	102
Team Members	102
Return on Investment	102
Team Training	109
Promotion	111
Integration	112
Veterinarians	112
State Requirements and Restrictions	112
Return on Investment	112
Course Availability	112
Supplies	114
Veterinary Organizations	114
Reference Materials	116
Promotion	122
Integration	122
Conclusion	122
References	122
3 Chinese Herbal Medicine	127
Introduction	127
The What	127
Definition	127
Human History	127
Veterinary History	128
Terminology	128
CHM and TCVM	130
TCVM Diagnosis	130
TCVM Theories and Practices	130
Classifications	142
TCVM Classifications	142
Western Classifications	147
Herbal Monographs	148
Formula Components	149
Formula TCVM Classifications	149
Formula Western Classifications	150
Chinese Herbal Therapy Treatment Strategies	150
Regulation	150
Drugs	150
Botanical Drugs	155
Human Dietary Supplements	156
Animal Dietary Supplements	157
Production	160
Seed to Seal	160
Good Manufacturing Practices	160
Quality Control	161
Endangered Species	162
Labeling	162

Safety	162
Adverse Effects	162
Herb–Drug Interactions	164
Formulations	166
Individual Herb Versus Formula	166
Dosage	168
The Why	169
Applications in Human Medicine	169
Applications in Veterinary Medicine	169
Veterinary Research	169
The How	172
Team Members	172
Return on Investment	172
Team Training	179
Promotion	181
Integration	182
Veterinarians	182
State Requirements and Restrictions	182

Course Availability	182
Supplies	185
Veterinary Organizations	186
Reference Books	189
Promotion	192
Integration	192
Conclusion	192
Acknowledgments	192
References	193
4 Nutraceuticals	201
Introduction	201
The What	201
Word Origin	201
Definition	201
Human History	202
Veterinary History	202
Terminology	203
Regulation	204
Veterinary Drugs Defined	204
DSHEA and Veterinary Medicine	204
Animal Food	205
Animal Food Additives	206
Complementary and Alternative Medicine Products	207
State Regulation	207
Production	207
Tracing Source Materials	208
Good Manufacturing Practice	208

Quality Control	209
Labeling	209
Seal of Approval	210
Safety	212
Adverse Effects	212
Veterinary Nutraceutical–Drug Interaction	213
Veterinary Nutraceutical Efficacy	215
Classifications	216
Vitamins	217
Minerals	219
Microbiome Therapy	221
Joint Supplements	229
Amino Acids	247
Antioxidants and Free Radical Scavengers	255
Botanicals	265
The Why	273
Applications in Human Medicine	273
Applications in Veterinary Medicine	273
Veterinary Nutraceutical Research	274
The How	278
Team Members	278
Return on Investment	278
Team Training	278
Promotion	280
Integration	280
Veterinarians	280
State Requirements and Restrictions	280
Course Availability	281
Supplies	281
Veterinary Organizations	281
Reference Materials	282
Promotion	283
Integration	283
Conclusion	284
Acknowledgments	284
References	284

5 Ozone Therapy 319

Introduction	319
The What	319
Word Origin	319
Definition	319
Human History	319
Veterinary History	320
Terminology	320
Ozone Basics	324

- Ozone Production 324
- Atmospheric Ozone 324
- Ozone Generator 325
- Administration Techniques 327
 - Formulation 327
 - Route of Administration 328
- Mechanisms of Action 330
 - Antimicrobial Effects 330
 - Immune Stimulation 331
 - Anti-Inflammatory and Analgesic 332
 - Anti-Hypoxic Effects 332
 - Mechanisms of Action for Veterinarians 332
- Safety 336
 - Operator Safety 336
 - Equipment Safety 338
 - Administration Safety 338
 - Adverse Effects 338
 - Use with Caution 338
- The Why 339
 - Applications in Human Medicine 339
 - Applications in Veterinary Medicine 339
 - Veterinary Research 339
- The How 341
 - Team Members 341
 - Return on Investment 341
 - Team Training 347
 - Promotion 348
 - Integration 350
 - Veterinarians 350
 - State Requirements and Restrictions 350
 - Return on Investment 351
 - Course Availability 351
 - Supplies and Equipment 353
 - Veterinary Organizations 353
 - Reference Books 354
 - Promotion 355
 - Integration 355
- Conclusion 355
- Acknowledgments 355
- References 355

- 6 Photobiomodulation 363**
 - Introduction 363
 - The What 363
 - Word Origin 363
 - Definition 363

Human History	364
Veterinary History	364
Terminology	364
Light Basics	366
Electromagnetic Spectrum	366
Visible Light	366
Laser and LED Basics	366
Lasers	366
Light-Emitting Diodes	369
Lasers versus LEDs	371
Photobiophysics and Photochemistry Basics	371
Tissue Interaction for Veterinarians	372
Lasers versus LEDs	372
Parameters	372
PBM Parameters for Veterinarians	373
Techniques and Protocols	376
Laser Probes	376
Delivery Mode	377
Techniques	377
Protocol	378
Mechanisms of Action	380
Physiologic MOA for Veterinarians	380
Therapeutic MOA for Veterinarians	388
Safety	391
Occupational Safety and Health Administration	391
Training Programs	393
Operator, Client, and Patient Safety	393
Cautions and Contraindications for Veterinarians	394
The Why	398
Applications in Human Medicine	398
Applications in Veterinary Medicine	399
Veterinary Research	399
The How	403
Team Members	403
Return on Investment	404
Team Training	409
Promotion	411
Integration	412
Veterinarians	412
State Requirements and Restrictions	412
Return on Investment	413
Course Availability	413
Supplies and Equipment	415
Veterinary Organizations	416
Reference Books	417

- Promotion 418
- Integration 418
- Conclusion 418
- References 418

7 Prolotherapy 431

- Introduction 431
- The What 431
 - Word Origin 431
 - Definition 431
 - Human History 432
 - Veterinary History 432
 - Terminology 432
 - Anatomy Fundamentals 434
 - Anatomy for Veterinarians 435
 - Physiology Fundamentals 435
 - Physiology for Veterinarians 435
 - Wound Healing Fundamentals 445
 - Wound Healing for Veterinarians 446
 - Administration Techniques 448
 - Dextrose Prolotherapy 448
 - Ozone 449
 - Mechanisms of Action 450
 - Mechanisms of Action for Veterinarians 450
 - Safety 452
- The Why 452
 - Applications in Human Medicine 452
 - Applications in Veterinary Medicine 453
 - Veterinary Research 454
- The How 456
 - Team Members 456
 - Return on Investment 456
 - Team Training 458
 - Promotion 458
 - Integration 460
 - Veterinarians 460
 - State Requirements and Restrictions 460
 - Return on Investment 460
 - Course Availability 461
 - Supplies and Equipment 461
 - Veterinary Organizations 461
 - Reference Books 462
 - Promotion 463
 - Integration 463
- Conclusion 463
- References 463

- 9 Trigger Point Therapy 503**
 - Introduction 503
 - The What 503
 - Definition 503
 - Human History 503
 - Veterinary History 504
 - Terminology 504
 - Muscular Anatomy Fundamentals 506
 - Muscle Anatomy for Veterinarians 507
 - Muscle Physiology Fundamentals 507
 - Muscle Physiology for Veterinarians 507
 - Trigger Point Physiology 517
 - TrP Characteristics 517
 - TrP Formation 518
 - TrP Classification 519
 - TrP Diagnosis 520
 - TrP Physiology for Veterinarians 522
 - TrPT Techniques 524
 - Noninvasive TrPTs 524
 - Invasive TrPTs 526
 - Mechanisms of Action 528
 - Mechanisms of Action for Veterinarians 529
 - Safety 532
 - The Why 534
 - Applications in Human Medicine 534
 - Applications in Veterinary Medicine 535
 - Veterinary Research 535
 - The How 538
 - Team Members 538
 - Return on Investment 538
 - Team Training 545
 - Promotion 546
 - Integration 547
 - Veterinarians 547
 - State Requirements and Restrictions 547
 - Return on Investment 548
 - Course Availability 548
 - Supplies and Equipment 549

 - Reference Books 552
 - Promotion 554
 - Integration 554
 - Conclusion 554
 - Acknowledgments 554
 - References 555

10 Veterinary Spinal Manipulation Therapy	563
Introduction	563
The What	563
Word Origin	563
Definition	563
Human History	564
Veterinary History	564
Terminology	565
Pain in Veterinary Patients	567
Anatomy Fundamentals	569
Neuroanatomy for Veterinarians	572
Physiology Fundamentals	578
Neurophysiology for Veterinarians	581
Chiropractic Fundamentals	589
Chiropractic Fundamentals for Veterinarians	595
Examination Fundamentals	598
Musculoskeletal Examination	598
Neurologic Examination	599
Techniques	600
Manual Adjustments or Manipulation	600
Traction	600
Mobilization	602
Stretch and Hold	603
Other Techniques	603
Post-Adjustment Recommendations	604
Mechanisms of Action	604
Mechanisms of Action for Veterinarians	605
Safety	607
The Why	607
Applications in Human Medicine	607
Applications in Veterinary Medicine	608
Veterinary Research	608
The How	611
Team Members	611
Return on Investment	611
Team Training	619
Promotion	620
Integration	621
Veterinarians	621
State Requirements and Restrictions	621
Return on Investment	621
Course Availability	621
Supplies and Equipment	627
