

# TABLE OF CONTENTS

## Textbook of Respiratory Disease in Dogs and Cats

### **Pt. 1. Approach to Problems in Respiratory Medicine**

1. Respiratory Distress and Cyanosis in Dogs
2. Respiratory Distress in Cats
3. Nasal Discharge, Sneezing, and Reverse Sneezing
4. Epistaxis
5. Upper Airway Obstruction, Stertor, and Stridor
6. Acute and Chronic Cough
7. Panting
8. Pleural Space Disease
9. Hypoventilation
10. Respiratory Muscle Fatigue and Failure

### **Pt. 2. Respiratory Tract Diagnostics**

11. Physical Examination of the Respiratory Tract
12. Thoracic Imaging
13. Diagnostic Pulmonary Scintigraphy
14. Rhinoscopy and Sampling from the Nasal Cavity
15. Laryngoscopy and Pharyngoscopy
16. Bronchoscopy
17. Bronchoalveolar Lavage
18. Tracheal Washes
19. Fine Needle Aspirates
20. Thoracocentesis
21. Respiratory Tract Cytopathology
22. Lung Biopsy and Thoracoscopy

### **Pt. 3. Pulmonary Function Testing**

23. Pulmonary Mechanics
24. Lung Mechanics Using Plethysmography and Spirometry
25. Interpretation of Blood Gas Measurements
26. Pulse Oximetry
27. End Tidal Capnography
28. Transcutaneous Oxygen and Carbon Dioxide Monitoring

#### **Pt. 4. Nonspecific Management of Respiratory Disease**

29. Oxygen Supplementation and Humidification
30. Airway Hygiene
31. Positive Pressure Ventilation
32. Drugs Affecting the Respiratory System
33. Anesthesia of the Patient with Respiratory Disease
34. Fluid Therapy in Animals with Lung Disease

#### **Pt. 5. Disorders of the Respiratory Tract - Nasal Cavity and Sinuses**

35. Feline Viral Upper Respiratory Disease
36. Fungal Rhinitis
37. Neoplasms of the Nasal Cavity
38. Nasal Foreign Bodies
39. Lymphoplasmacytic Rhinitis
40. Brachycephalic Airway Syndrome
41. Laryngeal Paralysis
42. Nasopharyngeal Polyps
43. Laryngeal Trauma
44. Laryngitis
45. Tumors of the Larynx and Trachea
46. Tracheal Collapse
47. Tracheal Hypoplasia
48. Tracheal Trauma
49. Infectious Tracheobronchitis
50. Primary Ciliary Dyskinesia
51. Bronchiectasis
52. Chronic Bronchitis in Dogs
53. Feline Bronchial Disease/Asthma
54. Bronchoesophageal Fistulas
55. Bronchopulmonary Dysplasia
56. Bacterial Pneumonia in Dogs and Cats
57. Aspiration Pneumonia
58. Viral Pneumonia
59. Fungal Pneumonia
60. Lipid Pneumonia
61. Protozoal Pneumonia
62. Atelectasis
63. Pulmonary Contusion
64. Smoke Inhalation
65. Accidental Drowning and Submersion Injury
66. Pulmonary Edema
67. Pulmonary Hypertension
68. Acute Lung Injury and Acute Respiratory Distress Syndrome

69. Pulmonary and Bronchial Neoplasia
70. Heartworm Infection
71. Pulmonary Thromboembolism
72. Eosinophilic Pneumonia
73. Parasites of the Lung
74. Lung Lobe Torsion
75. Respiratory Toxicology
76. Thoracic Mineralization
77. Idiopathic Pulmonary Fibrosis
78. Pleura Diaphragm and Chest Wall
79. Pleural Transudates and Modified Transudates
80. Chylothorax
81. Pyothorax
82. Hemothorax and Sanguineous Effusions
83. Pneumomediastinum and Pneumothorax
84. Diaphragmatic Hernia
85. Neoplasms of the Cranial Mediastinum and Pleura
86. Pectus Excavatum
87. Flail Chest.
